Subject: IRE/AAMVAnet Bridge Production Maintenance - Sunday August 27, 2017

CDLIS and S2S Participants:

The IRE/AAMVAnet bridge application provides an interface between Canadian Interprovincial Record Exchange (IRE) network and the American Association of Motor Vehicle Administrators Network (AAMVAnet) and is used to relay messages between US jurisdictions and Canadian provinces.

AAMVA will be releasing a new version of the IRE/AAMVAnet Bridge in the Production environment on August 27, 2017 during the normal maintenance window between 2:00 AM and 5:00 AM ET.

This new version is being released to accommodate a technology refresh and Jurisdictions will not be impacted by this change. Messages flowing between Canadian provinces and US Jurisdictions will continue as they do today.

If you have any questions, please contact the AAMVA Operations Help Desk at helpdesk@aamva.org.

Gary,

The pointer for Driver A on the CS is the duplicate non-CDL pointer that was added for # A11.

I can delete this pointer if you want.

Can you please add Driver A?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

Gary,

As part of the re-test, we will test the CSOR for Driver A (# A11) and Driver B (# B6) , to ensure the code fix hasn't impacted the successful CSOR case.

We don't need to redo the entire Driver C, we will run SG/SB & CSOR and the error cases after that.

That way we ensure successful and error cases are working fine.

Let me know if you have any questions.

Thanks,

Asma

From: Gary Tancik [<mailto:Gtancik@resdat.com>]

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

To give you a sense of the scope of change, you'll recall we made a fix for Drive D tests whereby the CSOR was in an in-progress state. The fix returned an error for a requesting state that was not the old SOR. Hence, the functional impact should be limited to Driver C and Driver D inquiry tests for the various CSOR conditions.

Gary,

Since we want the End-End test to be a clean run, let us know extent of the code fix required to resolve this issue.

I will check with Sruti to see the impact of this code fix and what needs to be retested.

Thanks,
Asma

From: Gary Tancik [<mailto:Gtancik@resdat.com>]

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

Looks like a code problem evaluating state of CSOR that will require a fix.

I am assuming now that a fix needs to be deployed before we can proceed. This will require extra attention to ensure all CSOR state conditions are correct so it may take the better part of the day to complete.

Subject: IRE/AAMVAnet Bridge Production Maintenance - Sunday August 27, 2017

CDLIS and S2S Participants:

The IRE/AAMVAnet bridge application provides an interface between Canadian Interprovincial Record Exchange (IRE) network and the American Association of Motor Vehicle Administrators Network (AAMVAnet) and is used to relay messages between US jurisdictions and Canadian provinces.

AAMVA will be releasing a new version of the IRE/AAMVAnet Bridge in the Production environment on August 27, 2017 during the normal maintenance window between 2:00 AM and 5:00 AM ET.

This new version is being released to accommodate a technology refresh and Jurisdictions will not be impacted by this change. Messages flowing between Canadian provinces and US Jurisdictions will continue as they do today.

If you have any questions, please contact the AAMVA Operations Help Desk at helpdesk@aamva.org.

Gary,

The pointer for Driver A on the CS is the duplicate non-CDL pointer that was added for # A11.

I can delete this pointer if you want.

Can you please add Driver A?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

Gary,

As part of the re-test, we will test the CSOR for Driver A (# A11) and Driver B (# B6) , to ensure the code fix hasn't impacted the successful CSOR case.

We don't need to redo the entire Driver C, we will run SG/SB & CSOR and the error cases after that.

That way we ensure successful and error cases are working fine.

Let me know if you have any questions.

Thanks,
Asma

From: Gary Tancik [<mailto:Gtancik@resdat.com>]

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

To give you a sense of the scope of change, you'll recall we made a fix for Drive D tests whereby the CSOR was in an in-progress state. The fix returned an error for a requesting state that was not the old SOR. Hence, the functional impact should be limited to Driver C and Driver D inquiry tests for the various CSOR conditions.

Gary,

Since we want the End-End test to be a clean run, let us know extent of the code fix required to resolve this issue.

I will check with Sruti to see the impact of this code fix and what needs to be retested.

Thanks,
Asma

From: Gary Tancik [<mailto:Gtancik@resdat.com>]

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver C

Looks like a code problem evaluating state of CSOR that will require a fix.

I am assuming now that a fix needs to be deployed before we can proceed. This will require extra attention to ensure all CSOR state conditions are correct so it may take the better part of the day to complete.

Hello Susan,

I've reverted the record from TC017 back to its original state post-TC004. I now know that that the dealership assignment title by itself is not adequate proof of ownership on its own.

Thank you.

Hi Dillon,

A Dealer Assignment is not adequate proof of ownership by itself without the accompanying title. The DMV would not do anything until the vehicle is sold by the dealership and the buyer brings both the title and the dealer assignment to the DMV to change the title into their name.

Let me know if this does not answer your question -

Thank you -

Debra

Howdy Debra,

Just wanted to run this by you.

The test reads "Vehicle in TC # 004 sold to a dealer", and the proof of ownership is a "Dealer Assignment Title".

What if anything would the DMV do regarding this transaction?

Thank you,

Hello Susan,

I can and have manually corrected the title date, but I'm not sure how the record got to be this way and the last modification to the record was on July 6th.

I think we should reset this one as well. Resetting to before or after the correction on your side both work for me.

Thank you,

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,
Susan Creighton / 703.908.5893 office

From: Dillon Salsman [<mailto:dsalsman@resdat.com>]

Cc: Garber, Casey; Mina Peters, AK Dept. of Administration; Patrick Anderson; David Nolen, AK Dept. of Administration
Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

Hello Susan,

Here are screenshots for my most recent execution of TC005. Judging by the R2 returned, it seems like I should've reversed/asked you to reverse AIVALIDVIN1TSTB05 or use a different VIN. Regardless, that's not really the point of the test.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

Hi Dillon,

TC005 data has been reset.

Thanks,

Susan Creighton / 703.908.5893 office

Hello Susan,

I forgot to put the old vin in the designated field. Could you please reset the record for TC005 and I'll try again?

Thank you,

This email comes from an external source, so remember, Think Before You Click!

Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the

history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC003
Attachments: TC003 Title Undo (08-08-2017 execution).PNG; TC003 Response to redriving SC.PNG; TC003 - DM.txt

Hello Susan,

I seem to have let this one slip through the cracks. To address the issues, I've added the title from TC002 back to the record, then repeated TC003. You should now have the DM available in your UNI log. Please find attached screenshots of the DM message and the results of redriving the SC after this morning's execution of TC003.

Thank you,

Subject: AK NMVTIS - TC003

Hello Susan,

I've noticed TC003 is shown as neither passed nor failed. I may have forgotten to report this test case as executed. I've attached screenshots from the execution which occurred on June 17th.

Thank you,

Subject: RE: NMVTIS AK Rewrite - TC067 & TC068

Hello Susan,

Is it intended that Oregon doesn't show up in the IU for TC068, despite being listed as the State of Title before the execution of TC067? There's only a New York result now. I assumed it was intentional and that the intent is for me to replace the UA I undid with a CSOT against New York since that is the only jurisdiction available.

Unfortunately, I made a mistake while attempting to take the record from New York that resulted in incorrect data being stored on the pointer. I resolved the issue by performing inquiries and then reversing the CSOT with an undo, but now this record is in a state similar to TC009 such that the CSOT undo must be acknowledged/approved on your end. Could you please acknowledge/approve/reset the CSOT status so that I may attempt TC068 again?

Thank you,

Hi Dillon,

The Undo was received but not the corrected title record was not sent. I'm still expecting a UT to document the title that was created and provided to the customer. It should have all the same information as was issued on the current title but be sent via UT so that the title records reconcile under the same vehicle.

Thanks,
Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click!

You are correct, when correcting a duplicate, you have to undo and then add back where it belongs. You must add back the same information as was added the first time, just via the correct method so that it does not create a duplicate. So in this case you have to UNDO the record that you added with a UA and then do a UT so that it reconciles to the existing VIN by using the same title number and title issue date that you gave for the UA. Please let me know if you are not able to use the same title number and title issue date as was on the original title.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC067 & TC068

Hello Susan,

I'm not sure how to go about TC068. TC067 had me treat an existing vehicle inquiry result as a separate vehicle and thus add a new title record. TC068 reads:

It is determined that the vehicle above in TC # 067 was the same vehicle and should have been reconciled with the existing NMVTIS record. The error is not discovered until the customer notices weeks later. Resolve the duplicate.

I don't see how this could be resolved without an undo. My understanding is that there would be no erroneous information printed on the title and thus relayering the title transactions after performing an undo would not require a new title to be printed. Does this conflict with any of the questionnaire answers? If a new title would be issued performing a CSOT, what becomes of the existing Alaska record?

Thank you,

Subject: AK NMVTIS - TC054

Hello Susan,

Here is information for the record I created for TC054:

20170823	THISRECORDSDTWICE	2017	HOND	3708996	40183985	000001000	M	
----------	-------------------	------	------	---------	----------	-----------	---	--

Please perform a successful CSOT against this record. Assuming there are no issues, I will then “accidentally” redrive the resulting SD message.

Thank you,

Subject: RE: AK NMVTIS - Current status

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it’s waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: AK - AMIE Online Re-write Meeting
Location: Conference Room Jaguar 4

Start: Wed 8/23/2017 12:30 PM
End: Wed 8/23/2017 1:30 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Creighton, Susan
Resources: Conference Room Jaguar 4

Conference Call Number: (888) 390-7016
PIN: 1509728

AK Meeting
Agenda 2017082...

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 8/23/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	
Dillon Pressley	Alaska – Resource Data	√	
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Marney Michalowski	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Online Scenario Testing
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	8/30/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

Subject: RE: NMVTIS AK Rewrite - TC071

Hi Dillon,

This test case is just removing the previous title record added during TC070, so yes an in-state change undo is expected.

Thanks,
Susan Creighton / 703.908.5893 office

From: Dillon Salsman [mailto:dsalsman@resdat.com]

Subject: RE: NMVTIS AK Rewrite - TC071

Howdy Susan,

TC071 reads as following:

It is determined that the vehicle in the above TC # 070 was titled erroneously, the title is removed. Resolve the duplicate.

I'm not sure what's expected here. If just TC070 was erroneous, just the In-State Change Undo would be performed, correct?

Subject: AK NMVTIS - Current Status

Hello Susan,

Here's a summary of everything I've sent you, mostly within the last several hours. I had been working on the fixes mentioned previously/below.

TC003

I let your requests for this one slip through. I've re-executed TC003 and sent you screenshots. No additional changes to The spreadsheet. Ready for review.

TC006A – pending TC007, TC027

Duplicate brand issue resolved. SC message has been redriven. Full message text doesn't fit in the screenshot when choosing "Text" mode. Ready for review.

TC009 – pending TC010

CSOT Undo executed, with inquiries. Ready for review.

TC017

Confirmation has been provided by Debra that they would never title under this scenario. I've reverted the record to its post-TC004 state and forwarded you her response.

TC040 – pending TC041

The database script which migrated brands from the legacy "tracking" method to the new one added salvage as reconstructed and reconstructed as salvage. Our database administrator has revised the script and all legacy records will be fixed in the near future. For the time being I've manually fixed the record for TC040.

TC054

I've supplied you information for a record to perform a CSOT against. I will redrive the resulting SD.

TC058

Ready for review.

TC059

Performing inquiries against the VIN I'm supposed to correct to (AISTRUCTREDCURW01) returns a CA record. The record has an entirely different make and model year. Asked for clarification.

TC060

The missing vehicle type mappings have been added. Ready for review.

TC068

I've sent you an e-mail asking about the Oregon jurisdiction from TC067. I also made a mistake while attempting the CSOT against NY (the only jurisdiction available) resulting in the need to reverse it. Reversing the CSOT has resulted in being unable to re-execute the test case. Likely the same issue we had for TC009.

TC074, TC75, TC076, and TC078

NC and NH handling addressed. Should be ready for another execution attempt.

Thank you,

Subject: RE: NMVTIS AK Rewrite - TC071
Attachments: TC071 In-State Change Undo.PNG

Hello Susan,

I've attached a screenshot for the DU message and I'll include my spreadsheet entry. The pointer started with the information from TC070 and ended with the result of TC069.

I guess I'm just confused by the "resolved the duplicate" bit. What, if anything, would I need to do anything in that regard? As far as I can tell, I've only manipulated an existing duplicate. Apologies if I'm missing something.

069	X - 05 X - 06 X - 07	A vehicle with standard VIN is being titled in your state for the first time, NMVTIS has multiple duplicates. Upon inquiry determine which vehicle you should conduct CSOT against.	Title		Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	56715860562
070	X - 05 X - 06 X - 07	The vehicle in TC # 069 is sold to a new owner.	Title	In-state	Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	7277380
071	X - 05 X - 06 X - 07	It is determined that the vehicle in the above TC # 070 was titled erroneously, the title is removed. Resolve the duplicate.	Title	Correction	Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	3708990

Hi Dillon,

This test case is just removing the previous title record added during TC070, so yes an in-state change undo is expected.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC071

Howdy Susan,

TC071 reads as following:

It is determined that the vehicle in the above TC # 070 was titled erroneously, the title is removed. Resolve the duplicate.

I'm not sure what's expected here. If just TC070 was erroneous, just the In-State Change Undo would be performed, correct?

Thank you,

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase.
Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Gary,

I think by mistake you added S92 (Withdrawal ID '01') instead of W30 on the H5 message.

Can you please look.

Thanks,
Asma

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Gary,

The W30 was from P6, the other W30 is from AI for multiple Serious conviction.

E8 looks good, can I send # E9?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Gary,

I resent # E7 and received the responses.

For # E8, on the H5 message, can you please add a W30 withdrawal from AI because of multiple Serious convictions.

Thanks,
Asma

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Gary,

I resent # E7 and received the responses.

For # E8, on the H5 message, can you please add a W30 withdrawal from AI because of multiple Serious convictions.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 8/23/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	√
David Nolen	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	√
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Marney Michalowski	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Online Scenario Testing
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

Online Scenario testing status. 83 total online scenario testing cases:

Current Status: 58 Test Cases have passed, 8 Test Cases are in failed status, 10 are with AAMVA to be validated (5 of which were failed) and 12 have not been executed.

Last Week Status: 49 Test Cases had passed, 8 Test Cases were in failed status, 12 were with AAMVA to be validated (3 of which were failed) and 17 had not been executed.

The last test case involves processing an N Message batch file using UNI. Mina will get with the AAMVA UNI Helpdesk on this.

Once all the test cases have passed for the online scenario testing, we will do a regression test of about 20 – 25 test cases to ensure that as defects were fixed, test cases that passed before still work.

Provide resource that can answer questions for AK. If I can work in the regression testing TCP prior to going out on vacation.

Susan will be out of the office from 8/30 – 9/11. We will postpone the next 2 meetings. Susan will provide a resource than can answer questions for AK while she is out. If she can get the regression test case ready prior to then, she will provide to AK.

NEXT STEPS:

Complete first pass of online scenario testing

Regression test online scenario testing

AAMVA create initial load test case plan

Structured testing of the initial load process

AK is ready to test the initial load when we are ready

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Create Online Scenario Regression Test Cases	Susan Creighton	ASAP	Open
Create Initial Load Test Case Plan	Susan Creighton	ASAP	Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status
--------	-------	----------	--------

7. Next Meeting

Date: (MM/DD/CCYY)	9/13/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

Verizon Maintenance Notification

Dear Verizon Customer,

I'd like to take this opportunity to thank you for being a Verizon Customer, and to update you on maintenance work that will be carried out on the Verizon network. Verizon will be performing maintenance activities, utilizing proven methods, in a manner to ensure the best performance for your connection. The maintenance window is from Aug 29 2017 00:00 AKDT - Aug 29 2017 06:00 AKDT , however my team has planned for your expected circuit downtime within this window to be 2 x 50

Millisecond(s). Below you will find more detailed information as it relates to the impact to your environment.

If you have questions regarding this maintenance event, please contact Verizon’s Global Event Management Center at email GEMC@VERIZON.COM. For those customers with a defined Account Team or Technical Service Manager, please refer all circuit based questions to your Verizon Account Representative.

I appreciate your cooperation and understanding in this matter. Verizon’s goal is to provide you with exceptional service every day, in every interaction. Thank you once again for your business, and your partnership.

Regards,
Kent Kildow
Director of Business Continuity & Event Management

NOTE: If your circuit remains down after the maintenance window has passed, please follow your defined Verizon Repair Center process for investigation.

Customer Contact ID: 221039

Maintenance Date/Time (Local): Aug 29 2017 00:00 AKDT - Aug 29 2017 06:00 AKDT

Maintenance Date/Time (GMT): Aug 29 2017 08:00 GMT - Aug 29 2017 14:00 GMT

Maintenance Location: PARKS HIGHWAY, ALASKA, UNITED STATES
A Third Party vendor will be performing scheduled network maintenance.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Conference Wrap Up

From all of us at AAMVA and the California DMV, we extend our sincere gratitude to all attendees of this year's Annual International Conference. Thank you for helping us make this a memorable AIC. Check out all the excitement from this week in the AIC 2017 wrap up video below.

AIC Pictures

Make sure to scroll through all the pictures from this week on the [AAMVA Flickr](#) page. If you see one of yourself, post it on social media and use the hashtag #AICSANFRAN.

Help Us Improve the Conference

Please take a moment to fill out this brief survey about the AIC. Let us know how you feel so we can continue to improve our conferences.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

I am receiving the SD multiple times and you are receiving the H2 the first time. Since the SD event depicts the new SOR, the existing license classes are being expired. The subsequent times you send the SD the permit is not included.

What is odd is that the response H* messages from the first SD are being returned back to AI without error although the jurisdiction state is set to P6 and the license number is 7685498 (AI).

I have changed the expirations dates again if you want to try to only send one SD. Below is the log so you can see H2 returned the on the first attempt and the odd return of H*.

ID	App	Type	Dest	M0	T0	Err	Locator

Gary,

AI send 'H2' message in # E13, but for # E16, there are no permits hence no H2 was sent.

It might be a data set up issue.

Can you look...

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

I am receiving the SD multiple times and you are receiving the H2 the first time. Since the SD event depicts the new SOR, the existing license classes are being expired. The subsequent times you send the SD the permit is not included.

What is odd is that the response H* messages from the first SD are being returned back to AI without error although the jurisdiction state is set to P6 and the license number is 7685498 (AI).

I have changed the expirations dates again if you want to try to only send one SD. Below is the log so you can see H2 returned the on the first attempt and the odd return of H*.

Gary,

AI send 'H2' message in # E13, but for # E16, there are no permits hence no H2 was sent.

It might be a data set up issue.

Can you look...

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

I am receiving the SD multiple times and you are receiving the H2 the first time. Since the SD event depicts the new SOR, the existing license classes are being expired. The subsequent times you send the SD the permit is not included.

What is odd is that the response H* messages from the first SD are being returned back to AI without error although the jurisdiction state is set to P6 and the license number is 7685498 (AI).

I have changed the expirations dates again if you want to try to only send one SD. Below is the log so you can see H2 returned the on the first attempt and the odd return of H*.

Gary,

AI send 'H2' message in # E13, but for # E16, there are no permits hence no H2 was sent.

It might be a data set up issue.

Can you look...

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

I am receiving the SD multiple times and you are receiving the H2 the first time. Since the SD event depicts the new SOR, the existing license classes are being expired. The subsequent times you send the SD the permit is not included.

What is odd is that the response H* messages from the first SD are being returned back to AI without error although the jurisdiction state is set to P6 and the license number is 7685498 (AI).

I have changed the expirations dates again if you want to try to only send one SD. Below is the log so you can see H2 returned the on the first attempt and the odd return of H*.

Gary,

AI send 'H2' message in # E13, but for # E16, there are no permits hence no H2 was sent.

It might be a data set up issue.

Can you look...

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver E

Ok, I've changed the S92 withdrawal to W30. However, I noticed there was already a W30 withdrawal, possibly from the previous test phase. Hopefully I am not making a mess.

Let me know if I should remove and/or re-add withdrawals with correct linkages to get to the expected state.

Hi Dillon,

TC009 looks good, but I am no longer able to re-drive the SC as it has already been purged. Would it be possible for you to re-drive the SC that was sent back on July 7th or is it gone for you too?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC75, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperfomed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: GoToMeeting Invitation - UNI 4.5 server setup part 2
Location: Online

Start: Fri 8/25/2017 10:00 AM
End: Fri 8/25/2017 11:00 AM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Peters, Mina L (DOA)
Required Attendees: Monroe, David (DOA sponsored); Kebede, Habtamu; Vaddi, Sathish

UNI 4.5 server setup part 2

To complete setup of new UNI server. Please plan on incorporating any changes needed to allow this to be used for digital image exchange, and any service packs and config files needed for NR11 (with the understanding that the NR11 configs may need to be changed in the future).

Fri, Aug 25, 2017 10:00 AM - 11:00 AM AKDT

Please join my meeting from your computer, tablet or smartphone.

<https://global.gotomeeting.com/join/132051333>

You can also dial in using your phone.

United States: +1 (571) 317-3122

Access Code: 132-051-333

First GoToMeeting? Try a test session: <https://care.citrixonline.com/g2m/getready>

Subject: RE: AK NMVTIS - TC040

Hello Susan,

I did not execute TC041. The brand records in the new brand tracking system for preexisting data are all backwards due to a mistake. I've fixed this record individually and I'm writing up a fix for the rest of them now. We can verify that the global fix is working by redriving an SC for a separate previously passed "we don't title this because it's junk" test case once I've performed the fix.

Sorry about that. TC040 should be good to go for one last SC.

Thank you,

Subject: RE: AK NMVTIS - TC040

This email comes from an external source, so remember, Think Before You Click!

Hi Dillon,

Did you already execute TC041? I'm not finding any emails on it but it's possible I've filed them incorrectly. I show that I reset the brand data on 7/13 and there is no brand data on NMVTIS in test at this time for this VIN. When I inquire against this VIN your state detail data for brand shows the reconstructed brand 10 which is not supposed to occur until TC041 but has a brand date of 5/24/17 which is what the spreadsheet indicates is the date the brand was applied by AK for the Salvage Brand 11 (TC040). So if you executed TC041, please send me the screenshots and I will validate.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: FW: Some inquiry messages...

Hi Reed,

First, thank you again for your help and participation today. I WOULD actually like to know what the difference will be in our UNI bill between our current 2 licenses (1 mainframe, 1 Windows) and our future with either 2 Windows licenses or (hopefully) 1 Windows license.

On another note – just wanted to pass on this exchange with one of my UNI buddies. This is a major pain to have to do, and I’m not sure if it’s been reported as a mainframe UNI glitch. Of course, it is only an issue in Test since we can’t modify in production (which would actually be an ENORMOUS help!!!), but for those of us who program, it gets in the way. Yes, I figured out the workaround, but still...!

At the very least, even if it doesn’t get fixed, maybe the workaround could be a topic of discussion at the next CDL/IT conference so other users don’t have the frustration we did. I think a “UNI Tips and Tricks, how to make UNI work better for you” would be a fabulous breakout discussion ☐ .

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

This email comes from an external source, so remember, Think Before You Click!

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Debra L. Leonardo, Office Manager III

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.

2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

Hi Mina. I will get back to you regards to billing and also comment on the matter you raise. I think you are saying that is just an issue on that screen (U244) but there is NOT an issue with the collating sequence when processing a message to/from NCS?

I will get back to you asap. Always good to talk to you and wish you much success in the project you are focused on.

Best regards, Reed

Subject: FW: Some inquiry messages...

Hi Reed,

First, thank you again for your help and participation today. I WOULD actually like to know what the difference will be in our UNI bill between our current 2 licenses (1 mainframe, 1 Windows) and our future with either 2 Windows licenses or (hopefully) 1 Windows license.

On another note – just wanted to pass on this exchange with one of my UNI buddies. This is a major pain to have to do, and I'm not sure if it's been reported as a mainframe UNI glitch. Of course, it is only an issue in Test since we can't modify in production (which would actually be an ENORMOUS help!!!), but for those of us who program, it gets in the way. Yes, I figured out the workaround, but still...!

At the very least, even if it doesn't get fixed, maybe the workaround could be a topic of discussion at the next CDL/IT conference so other users don't have the frustration we did. I think a "UNI Tips and Tricks, how to make UNI work better for you" would be a fabulous breakout discussion ☐ .

Subject: Some inquiry messages...

Mina,
I am attempting to use some other jurisdictions to send me AppID 02 CDLIS SG and SB messages. When they send them, I am finding I cannot update the DLN to resend to myself. Since I have been successful with you before, can you try sending me an SB and SG on this driver? I am hoping you are still able to and haven't had your test environment messed up yet like you mentioned before.

Document Info	Pointer Type	CDLIS
	Doc Type	CDL license
	Real ID Conformant	Yes
	DLN	0205836994
Pointer Info	Driver Last Name	BLUENVPOOL
	Driver First Name	MARYNVPOOL
	Driver Middle Name	
	Driver Suffix	
	Driver SSN (Full or Last 5)	311*23*1232
	Driver DOB	10/10/1978

Here is the error I get when I try to update the DLN. These are coming from State-to-State jurisdictions. So maybe that is a factor.

Hi Reed,

Thank you! Regarding the issue below, I'm not sure if we're speaking the same language. I'll send you a separate email with better specific examples of the error.

Regards,

Mina Peters

Hi Mina. I will get back to you regards to billing and also comment on the matter you raise. I think you are saying that is just an issue on that screen (U244) but there is NOT an issue with the collating sequence when processing a message to/from NCS?

I will get back to you asap. Always good to talk to you and wish you much success in the project you are focused on.

Best regards, Reed

Subject: FW: Some inquiry messages...

Hi Reed,

First, thank you again for your help and participation today. I WOULD actually like to know what the difference will be in our UNI bill between our current 2 licenses (1 mainframe, 1 Windows) and our future with either 2 Windows licenses or (hopefully) 1 Windows license.

On another note – just wanted to pass on this exchange with one of my UNI buddies. This is a major pain to have to do, and I'm not sure if it's been reported as a mainframe UNI glitch. Of course, it is only an issue in Test since we can't modify in production (which would actually be an ENORMOUS help!!!), but for those of us who program, it gets in the way. Yes, I figured out the workaround, but still...!

At the very least, even if it doesn't get fixed, maybe the workaround could be a topic of discussion at the next CDL/IT conference so other users don't have the frustration we did. I think a "UNI Tips and Tricks, how to make UNI work better for you" would be a fabulous breakout discussion ☐ .

Mina,
I am attempting to use some other jurisdictions to send me AppID 02 CDLIS SG and SB messages. When they send them, I am finding I cannot update the DLN to resend to myself. Since I have been successful with you before, can you try sending me an SB and SG on this driver? I am hoping you are still able to and haven't had your test environment messed up yet like you mentioned before.

From: Peters, Mina L (DOA)
Sent: Thursday, August 24, 2017 11:42 AM
To: Rusniak, Reed
Subject: Mainframe UNI block order
Attachments: Mainframe UNI issue.docx

Hi Reed,

Here is a document with screen prints of the issue and workaround. At the bottom are the suggested fixes on AAMVA's side. I would personally suggest that the AAMVA side be evaluated and that AAMVA forward the blocks in the correct, expected order – the same order we are sending them in.

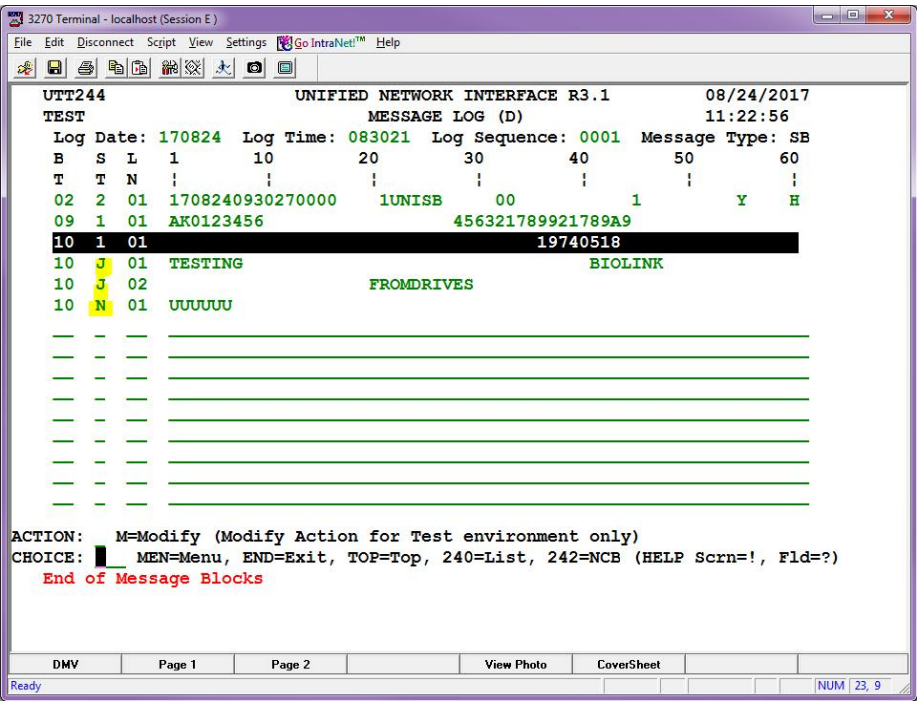

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles
Mina.Peters@alaska.gov

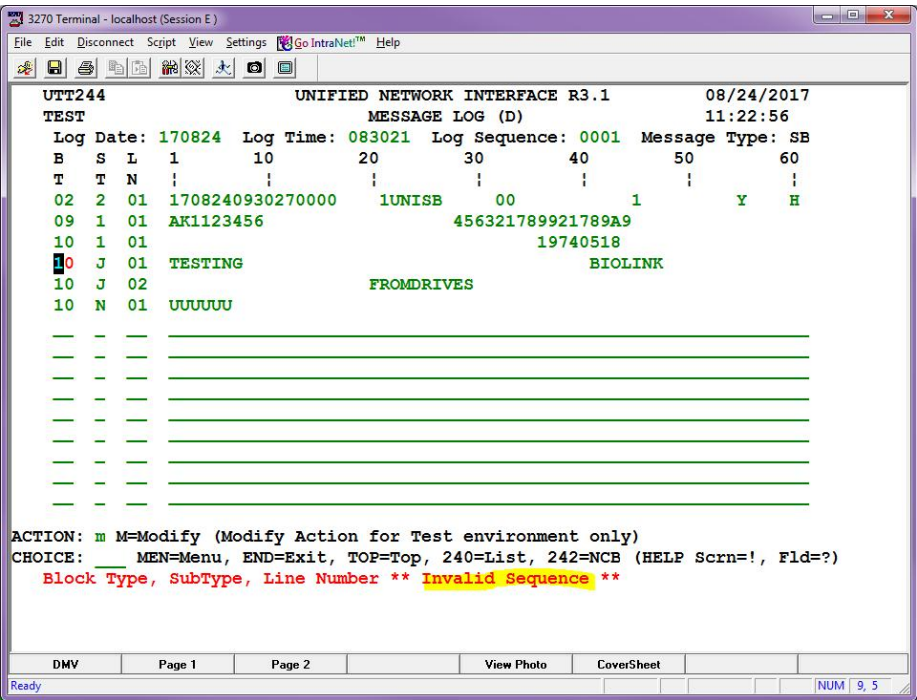

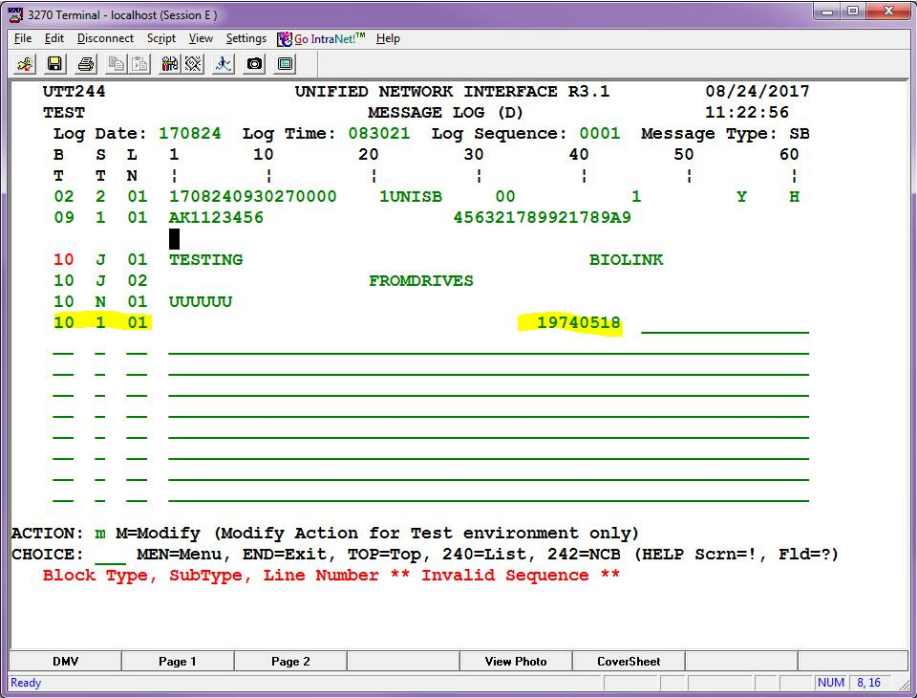

When we receive an SB/SG/SD message, it arrives into our queue with the 10 blocks showing the numeric subblocks before the lettered sub-blocks. Note the black highlighted 10/1 block is above the yellow highlighted 10/J and 10/N blocks.

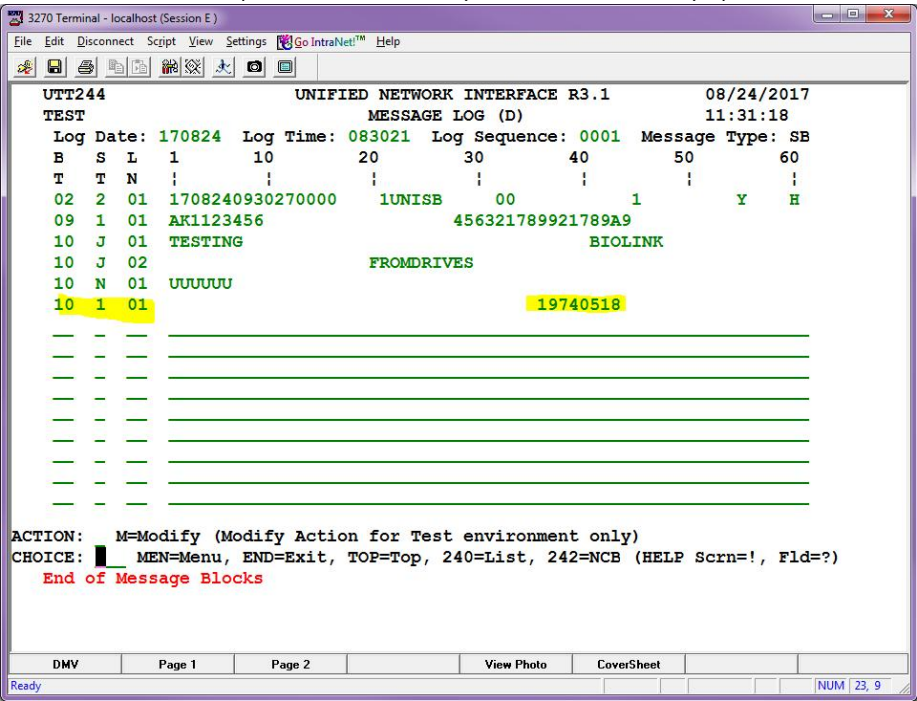

Test allows us to modify the block fields, which is extremely helpful in troubleshooting and testing. So, for example, if I try to modify the DLN on this screen, I get the following error:

The only way to fix this is by manually moving the 10/1 block to be below the 10/N block. We must copy the data from the 10/1 block and paste it to the line below, then blank out the current 10/1 block, like this:

Now when I hit enter, it adds the new 10/1 line below the 10/N, and deletes the previous 10/1, and no error:

And, FYI, we send our SB/SG/SD messages out with the 10/1 field last. Somewhere at AAMVA, it gets switched before being forwarded to the other state. So, either the rule needs to be modified in our UNI application, or the SB/SG/SD messages need to be forwarded to the states with the blocks in the correct order.

Hello Susan,

I've reverted the record from TC017 back to its original state post-TC004. I now know that that the dealership assignment title by itself is not adequate proof of ownership on its own.

Thank you.

Hi Dillon,

A Dealer Assignment is not adequate proof of ownership by itself without the accompanying title. The DMV would not do anything until the vehicle is sold by the dealership and the buyer brings both the title and the dealer assignment to the DMV to change the title into their name.

Let me know if this does not answer your question -

Thank you -

Debra

Howdy Debra,

Just wanted to run this by you.

The test reads "Vehicle in TC # 004 sold to a dealer", and the proof of ownership is a "Dealer Assignment Title".

What if anything would the DMV do regarding this transaction?

Thank you,

Hi Dillon,

I have reset this to after you finding that there was a duplicate and having the other state correct the issue.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC004

Hello Susan,

I can and have manually corrected the title date, but I'm not sure how the record got to be this way and the last modification to the record was on July 6th.

I think we should reset this one as well. Resetting to before or after the correction on your side both work for me.

Thank you,

Hi Dillon,

The previous jurisdiction is now blank on the HC for TC004but now the following fields are missing:

Missing Odometer Date

Missing Title Issue Date

Missing Title Status Date

Thanks,

Susan Creighton / 703.908.5893 office

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

Here are screenshots for my most recent execution of TC005. Judging by the R2 returned, it seems like I should've reversed/asked you to reverse AIVALIDVIN1TSTB05 or use a different VIN. Regardless, that's not really the point of the test.

Thank you,

Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: RE: AK NMVTIS - TC003

Hello Susan,

I seem to have let this one slip through the cracks. To address the issues, I've added the title from TC002 back to the record, then repeated TC003. You should now have the DM available in your UNI log. Please find attached screenshots of the DM message and the results of redriving the SC after this morning's execution of TC003.

Thank you,

This email comes from an external source, so remember, Think Before You Click!

For this one I can no longer pull the UNI information to check the format of the message. Could you please copy the message contents and send to me by doing the following.

Open the message in UNI (the one below is a UT message and yours will be a DM)

Click on the box on right with Grid and change to Text

Select all the data in the message making sure to get all the spaces on the last line to the right of the data.

And copy it to the email.

023011707031555330000	1UNIUT	06201AISTRUCTREDTSTX05

Subject: RE: NMVTIS AK Rewrite - TC067 & TC068

Hello Susan,

Is it intended that Oregon doesn't show up in the IU for TC068, despite being listed as the State of Title before the execution of TC067? There's only a New York result now. I assumed it was intentional and that the intent is for me to replace the UA I undid with a CSOT against New York since that is the only jurisdiction available.

Unfortunately, I made a mistake while attempting to take the record from New York that resulted in incorrect data being stored on the pointer. I resolved the issue by performing inquiries and then reversing the CSOT with an undo, but now this record is in a state similar to TC009 such that the CSOT undo must be acknowledged/approved on your end. Could you please acknowledge/approve/reset the CSOT status so that I may attempt TC068 again?

Thank you,

Hi Dillon,

The Undo was received but not the corrected title record was not sent. I'm still expecting a UT to document the title that was created and provided to the customer. It should have all the same information as was issued on the current title but be sent via UT so that the title records reconcile under the same vehicle.

Thanks,

Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click!

You are correct, when correcting a duplicate, you have to undo and then add back where it belongs. You must add back the same information as was added the first time, just via the correct method so that it does not create a duplicate. So in this case you have to UNDO the record that you added with a UA and then do a UT so that it reconciles to the existing VIN by using the same title number and title issue date that you gave for the UA. Please let me know if you are not able to use the same title number and title issue date as was on the original title.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC067 & TC068

Hello Susan,

I'm not sure how to go about TC068. TC067 had me treat an existing vehicle inquiry result as a separate vehicle and thus add a new title record. TC068 reads:

It is determined that the vehicle above in TC # 067 was the same vehicle and should have been reconciled with the existing NMVTIS record. The error is not discovered until the customer notices weeks later. Resolve the duplicate.

I don't see how this could be resolved without an undo. My understanding is that there would be no erroneous information printed on the title and thus relayering the title transactions after performing an undo would not require a new title to be printed. Does this conflict with any of the questionnaire answers? If a new title would be issued performing a CSOT, what becomes of the existing Alaska record?

Thank you,

Subject: RE: Mainframe UNI block order

Hi This is from the government catalog. Alaska today pays for two full licenses. One for CICS UNI one for Windows UNI. Each unit is \$862.12. If you move to two Windows UNI servers it will be \$862.12 + \$287.17. The second copy of the same version is 1/3 of the full price.

As I briefly mentioned on the phone yesterday I know of no technical reason to keep two Windows UNI servers once you go live. In other words you would not really need 'AI' any longer. That is of course not my decision. If you want to talk please feel free to call me at any time.

Regarding the U244 issue I am aware of the problem. My understanding is it is exclusively related to the U244 screen and is only a problem in the Test environment. If that is not correct though please let me know. We will investigate a fix.

Hope you have a good day Mina.

Regards, Reed

Translation Software for Motor Vehicle Program Applications

Unified Network Interface (UNI)

UNI handles message exchanges between two or more AAMVAnet™ sites. It uses the network and data standard AMIE, AAMVAnet Message Interchange Envelope.

UNI was developed by the member agencies of the American Association of Motor Vehicle Administrators (AAMVA). These agencies paid for the development of the software through user fees and are granted use of this software for the payment of maintenance charges only.

UNI is available in the following platforms:

- IBM MVS/CICS/VSAM
- IBM IMS/DL1
- IBM DOS-VSE/CICS/VSAM
- UNISYS 1100-2200/DMS
- SUN MICROSYSTEMS (UNIX)
- IBM RS/6000 (UNIX)
- MOTOROLA 8088 (UNIX)
- HP-UX (UNIX)
- WINDOWS .NET

UNI Fees applicable to the 51 Jurisdictional Master Accounts for CDLIS

Item Description	Unit	Rate
------------------	------	------

AAMVA member agency	per month	\$862.12
Additional licenses (Same Version)	per month	\$287.16

Please note that licenses for a second **version** of UNI will require the full monthly fee. A version is equivalent to a unique platform.

Subject: Mainframe UNI block order

Hi Reed,

Here is a document with screen prints of the issue and workaround. At the bottom are the suggested fixes on AAMVA's side. I would personally suggest that the AAMVA side be evaluated and that AAMVA forward the blocks in the correct, expected order – the same order we are sending them in.

Thank you, Reed! This is very good information to have. And we will discuss internally how to handle the DIA application – I would just as soon not have multiple servers if we can avoid it.

Yes, the issue I reported is with U244 and though the switch happens in Production, it's only a problem in Test because it's only in Test that one can do a modify command. However, it's still a problem. If AAMVA has deemed it not worth fixing, so be it, but I wanted to at least make you aware of it. However, it might be helpful to explain to users that although it does exist, there is a workaround.

Subject: AK NMVTIS - TC054

Hello Susan,

Here is information for the record I created for TC054:

20170823	THISRECORDSDTWICE	2017	HOND	3708996	40183985	000001000	M	
----------	-------------------	------	------	---------	----------	-----------	---	--

Please perform a successful CSOT against this record. Assuming there are no issues, I will then “accidentally” redrive the resulting SD message.

Thank you,

Subject: RE: AK NMVTIS - Current status

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Gary,

Please proceed with # L4.

Note from the Test Plan:

Note: Ensure AI adds Five matching Duplicate Pointer (with CDLIS Pointer Indicator (DCDCPI) = N for some and Y for the Others and State Document Type (BJDTYP) = 1 or 2) before AI executes this Test Case.

Thanks,
Asma

Gary,

Please proceed with # L4.

Note from the Test Plan:

Note: Ensure AI adds Five matching Duplicate Pointer (with CDLIS Pointer Indicator (DCDCPI) = N for some and Y for the Others and State Document Type (BJDTYP) = 1 or 2) before AI executes this Test Case.

Thanks,
Asma

Subject: AK NMVTIS - Current Status

Hello Susan,

Here's a summary of everything I've sent you, mostly within the last several hours. I had been working on the fixes mentioned previously/below.

TC003

I let your requests for this one slip through. I've re-executed TC003 and sent you screenshots. No additional changes to The spreadsheet. Ready for review. **-- passed**

TC006A – pending TC007, TC027

Duplicate brand issue resolved. SC message has been redriven. Full message text doesn't fit in the screenshot when choosing "Text" mode. Ready for review. **-- passed**

TC009 – pending TC010

CSOT Undo executed, with inquiries. Ready for review. **-- passed**

TC017

Confirmation has been provided by Debra that they would never title under this scenario. I've reverted the record to its post-TC004 state and forwarded you her response. **-- passed**

TC040 – pending TC041

The database script which migrated brands from the legacy "tracking" method to the new one added salvage as reconstructed and reconstructed as salvage. Our database administrator has revised the script and all legacy records will be fixed in the near future. For the time being I've manually fixed the record for TC040. **-- passed**

TC054

I've supplied you information for a record to perform a CSOT against. I will redrive the resulting SD. **-- CSOT has been completed**

TC058

Ready for review. -- passed

TC059

Performing inquiries against the VIN I'm supposed to correct to (AISTRUCTREDCURW01) returns a CA record. The record has an entirely different make and model year. Asked for clarification. -- discussed in meeting on 8/23

TC060

The missing vehicle type mappings have been added. Ready for review. --passed

TC068

I've sent you an e-mail asking about the Oregon jurisdiction from TC067. I also made a mistake while attempting the CSOT against NY (the only jurisdiction available) resulting in the need to reverse it. Reversing the CSOT has resulted in being unable to re-execute the test case. Likely the same issue we had for TC009. -- CSOT Flag has been reset

TC074, TC075, TC076, and TC078 -- see below

NC and NH handling addressed. Should be ready for another execution attempt.

--TC074 failed - the inquiry before and after showed the title status was active so when we sent you the NH your title status in your database did not get updated

--TC075 pending TC074

--TC076 failed - the inquiry before and after showed the title status was active so when we sent you the NH your title status in your database did not get updated - also, please add the 26/3 block Previous Titling Jurisdiction

--TC077 pending TC076

Thank you,

Gary,

Please proceed with # L4.

Note from the Test Plan:

Note: Ensure AI adds Five matching Duplicate Pointer (with CDLIS Pointer Indicator (DCDCPI) = N for some and Y for the Others and State Document Type (BJDTYP) = 1 or 2) before AI executes this Test Case.

Thanks,
Asma

Hi Dillon,

Everything as far as the update went fine but the HC returned by AK has the title information for the record that you removed instead of TITLE NOT FOUND.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC071

Hello Susan,

I've attached a screenshot for the DU message and I'll include my spreadsheet entry. The pointer started with the information from TC070 and ended with the result of TC069.

I guess I'm just confused by the "resolved the duplicate" bit. What, if anything, would I need to do anything in that regard? As far as I can tell, I've only manipulated an existing duplicate. Apologies if I'm missing something.

069	X - 05 X - 06 X - 07	A vehicle with standard VIN is being titled in your state for the first time, NMVTIS has multiple duplicates. Upon inquiry determine which vehicle you should conduct CSOT against.	Title		Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	56715860562
070	X - 05 X - 06 X - 07	The vehicle in TC # 069 is sold to a new owner.	Title	In-state	Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	7277380
071	X - 05 X	It is determined that the vehicle in the above TC # 070 was titled	Title	Correction	Sedan, 2 Door	AISTRUCTREDTSTX05	1986	NISS	WY	3708990

- 06 X - 07	erroneously, the title is removed. Resolve the duplicate.

Hi Dillon,

This test case is just removing the previous title record added during TC070, so yes an in-state change undo is expected.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC071

Howdy Susan,

TC071 reads as following:

It is determined that the vehicle in the above TC # 070 was titled erroneously, the title is removed. Resolve the duplicate.

I'm not sure what's expected here. If just TC070 was erroneous, just the In-State Change Undo would be performed, correct?

Thank you,

To: Syeda, Asma
Cc: Singaraju, Sruti; Peters, Mina L (DOA)
Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver M

Can you help clarify the expected withdrawals? I had created M21 and M22 withdrawals for those individual convictions. Would you expect a M23 withdrawal for the new M23 conviction?

And also, I had created a W60 withdrawal for M21 and M22 convictions. Can you confirm W60 withdrawal will be removed and a new W61 withdrawal linking all three convictions?

Subject: AK NMVTIS - Current Status

Hello Susan,

Here's a summary of everything I've sent you, mostly within the last several hours. I had been working on the fixes mentioned previously/below.

TC003

I let your requests for this one slip through. I've re-executed TC003 and sent you screenshots. No additional changes to The spreadsheet. Ready for review. **-- passed**

TC006A – pending TC007, TC027

Duplicate brand issue resolved. SC message has been redriven. Full message text doesn't fit in the screenshot when choosing "Text" mode. Ready for review. **-- passed**

TC009 – pending TC010

CSOT Undo executed, with inquiries. Ready for review. -- passed

TC017

Confirmation has been provided by Debra that they would never title under this scenario. I've reverted the record to its post-TC004 state and forwarded you her response. -- passed

TC040 – pending TC041

The database script which migrated brands from the legacy “tracking” method to the new one added salvage as reconstructed and reconstructed as salvage. Our database administrator has revised the script and all legacy records will be fixed in the near future. For the time being I've manually fixed the record for TC040. -- passed

TC054

I've supplied you information for a record to perform a CSOT against. I will redrive the resulting SD. -- CSOT has been completed

TC058

Ready for review. -- passed

TC059

Performing inquiries against the VIN I'm supposed to correct to (A1STRUCUREDURW01) returns a CA record. The record has an entirely different make and model year. Asked for clarification. -- discussed in meeting on 8/23

TC060

The missing vehicle type mappings have been added. Ready for review. --passed

TC068

I've sent you an e-mail asking about the Oregon jurisdiction from TC067. I also made a mistake while attempting the CSOT against NY (the only jurisdiction available) resulting in the need to reverse it. Reversing the CSOT has resulted in being unable to re-execute the test case. Likely the same issue we had for TC009. -- CSOT Flag has been reset

TC074, TC075, TC076, and TC078 -- see below

NC and NH handling addressed. Should be ready for another execution attempt.

--TC074 failed - the inquiry before and after showed the title status was active so when we sent you the NH your title status in your database did not get updated

--TC075 pending TC074

--TC076 failed - the inquiry before and after showed the title status was active so when we sent you the NH your title status in your database did not get updated - also, please add the 26/3 block Previous Titling Jurisdiction

--TC077 pending TC076

Thank you,

Subject: SFTP instruction to download Service packs
Attachments: AAMVA SFTP Instructions.docx

David,
I have attached SFTP setup instructions document to download UNI4.5 service packs
Here is the user name for SFTP account : [REDACTED]
Password will be sent on a separate email

Please download the UNI4.5 - Service pack 1&2 files.

/Windows/4.5/UNI4.5/ServicePacks/
UNI45SP1.zip
UNI45SP2.zip

Thank you,

Sathish Vaddi | Senior Application Support | AAMVA | 4401 Wilson Blvd, Suite 700, Arlington, VA 22203

If you have received this message in error, please immediately advise the sender by reply E-mail and then delete this

1. Go to <https://winscp.net/eng/download.php> and click "Installation Package"
2. Once that has downloaded, follow the steps at https://winscp.net/eng/docs/guide_install to properly install WinSCP
3. For Host name: [REDACTED]
4. For Username, Password: provided by AAMVA staff (See Below example)

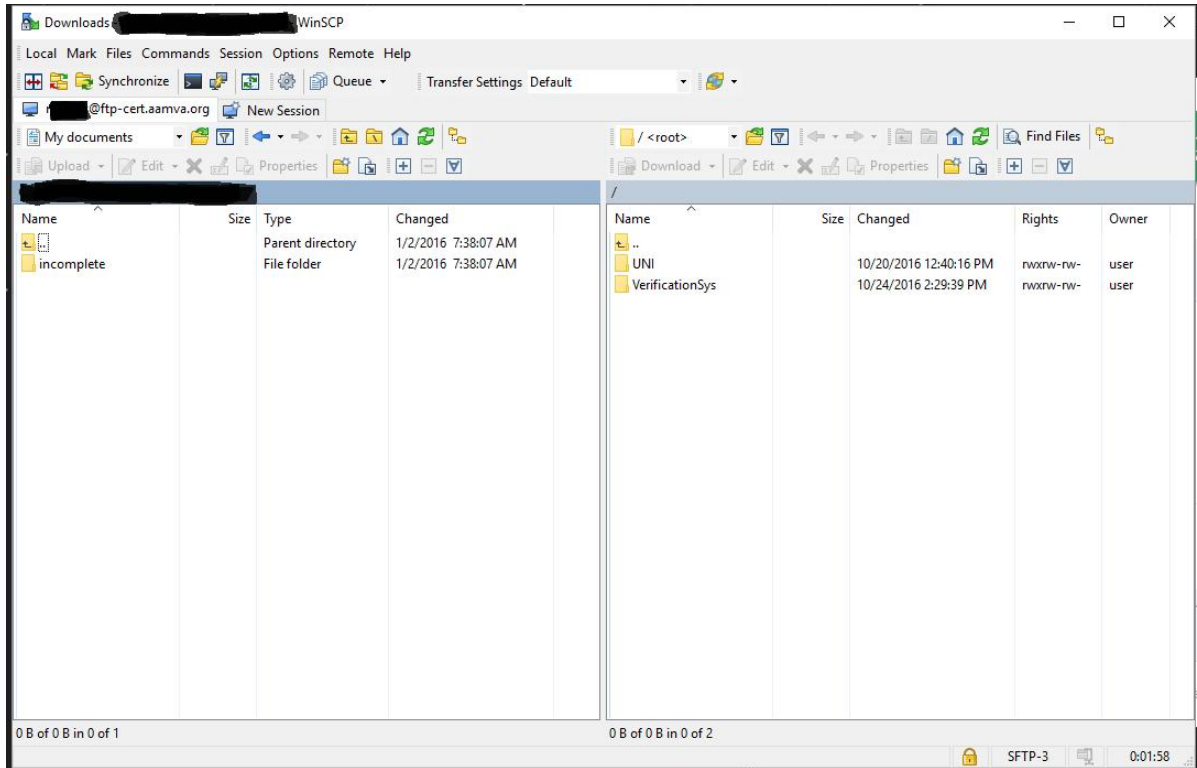

5. Click "Save" and save the profile, feel free to choose a Site name, and click OK
6. The site should now appear in the left window (see below)

7. Click the Login button
8. A popup will appear asking you to accept a key, click OK

- 9. Click OK on the next dialog box (GlobalScape EFT)
- 10. You should now have a window for file transfers as shown below

- 11. Navigate to the file you've requested (Folderpath provided by AAMVA) and drag and drop from the right window, to the left.
- 12. Once the file transfer is complete, close WinSCP and click OK on the dialog box that appears

Can you help clarify the expected withdrawals? I had created M21 and M22 withdrawals for those individual convictions. Would you expect a M23 withdrawal for the new M23 conviction?

And also, I had created a W60 withdrawal for M21 and M22 convictions. Can you confirm W60 withdrawal will be removed and a new W61 withdrawal linking all three convictions?

Can you help clarify the expected withdrawals? I had created M21 and M22 withdrawals for those individual convictions. Would you expect a M23 withdrawal for the new M23 conviction?

And also, I had created a W60 withdrawal for M21 and M22 convictions. Can you confirm W60 withdrawal will be removed and a new W61 withdrawal linking all three convictions?

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,
Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A

01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?
------------	--	----	--------	---

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

Gary,

CSOR was successful, this completes Driver M.

I need to step away for 30 mints, will start Driver N when I am back.

Thanks,
Asma

Subject: RE: SFTP instruction to download Service packs

Hi Sathish and Hab,

Thank you again for your assistance today with setting up our UNI server. Dave and I both believe that we are now setup for success.

One other thing that occurred to Dave and I after the call was the question of purging the data. On mainframe UNI, we were provided with some sample JCL with which to create our own backup/purge jobs. I would guess there may be one or more stored procedures to accomplish this on Windows UNI as well. Can you please let us know if this is true, and if so, which procedures should we be setting up?

Gary,

For violating the 1st OOO Conviction, the withdrawal should be no less than 180 days or more than 1 yr.:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
Violating Out-of-Service			
1 st conviction = no less than 180 days or more than 1 yr			
1 st conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than			
2 nd conviction w/in 10 yr = no less than 2 yrs or more than 5 yrs			
2 nd conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than			
3 rd conviction w/in 10 yr (no distinction for hazmat or number of passengers) = no less than			
<i>NOTES: disqualification period must be in addition to any other previous period of disqualification</i>			
<i>Only applicable when offense occurred in a CMV)</i>			
For 1 st conviction – ACD Code of withdrawal is same as ACD Code of conviction;			
Retention Period: 15 years from the conviction date or for as long as any resulting withdrawal			
383.51(e)(1)	Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	B19	Violating out-of-service order while transporting hazardous materials
383.51(e)(2)	Violating a driver or vehicle out-of-service order while transporting nonhazardous materials	B27	Violating out-of-service order while transporting nonhazardous materials

Thanks,
Asma

Subject: UNI Site Table Update for Canadian Provinces

Good Afternoon,

On August 27th, AAMVA will be updating the IRE Bridge to act as a CDLIS 6.0 (Application37) site for exchanging messages with the Canadian Provinces. It was brought to our attention during testing that the H1 messages will fail unless the proper sub-system code is set for the Canadian Provinces. We currently have code in place to take care of this such that the response is still sent back to Canada, but you will see an entry in your System Error Log for the H1 message.

Jurisdictions that are currently operating as a CDLIS 6.0 (SPEX Application 37) site will have to update their UNI Site Table in both Test and Production environments for all of the Canadian Province Gap Codes that are listed below. For Application 37, the sub-system code should be changed from 4 to 8.

Instructions are provided below the list as a reference to make the UNI Site Table modifications. These changes may be completed at any time, even prior to August 27th. If this change is made after August 27th, it will not impact the transactions in any way, but you will see errors related to H1 messages exchanged with the Canadian Provinces in UNI's system error log.

Instructions for modifying Canadian Province UNI Site Table entries:

1. Go to the UNI On line Utilities and display the UTT225 screen. Enter a Canadian Gap Code from the list in the Site ID field in the upper left portion of the screen and press Enter. You should see something similar to below as seen using the AB Gap Code for Alberta:

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA                                Net Stat

CD Net Service Name:      CD Net Service Name:      CD Net
FL FILE I/O              NC NCS                        TE TEST

      ID Appli Name      CD Subsy Name              ID Appli Name
02 CDLIS                  4 IRE/BRIDGE              37 SPEX

ACTION:  _ A=Add, D=Delete, M=Modify
CHOICE:  _ END=Exit, MEN=Menu, 220=List                (

MA  A
```

2. Next, modify the Sub-system code for Application 37 by placing an '8' in the subsystem field and also entering an 'M' in the ACTION field in the lower left portion of the screen prior to pressing Enter as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                  SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA           Net Stat

CD Net Service Name:      CD Net Service Name:      CD Net
FL FILE I/O              NC NCS                  TE TEST

      ID Appli Name      CD Subsy Name      ID Appli Name
      02 CDLIS           4  IRE/BRIDGE      37 SPEX

ACTION: M A=Add, D=Delete, M=Modify
CHOICE: _ END=Exit, MEN=Menu, 220=List

MA  A
```

3. After pressing Enter, verify that you see the label 'STATE' next to the sub system code for Application 37 as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                  SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA           Net Statu

CD Net Service Name:                CD Net Service Name:                CD Net S
FL FILE I/O                          NC NCS                             TE TESTM

      ID Appli Name      CD Subsy Name                ID Appli Name      C
02 CDLIS                 4 IRE/BRIDGE                37 SPEX             8

ACTION:  _  A=Add, D=Delete, M=Modify
CHOICE:  _  END=Exit, MEN=Menu, 220=List                (P

1A  A
```

Note: You can leave the info for Application 02 as is or change the sub-system code to 8 for that as well. Application 02 is not used by your site. It can also be removed but it is really not necessary to do at this time.

Repeat the above steps (in Test and Prod environments) for each of the Canadian Province Gap Codes provided in the list at the top of this email. It should only take a few minutes to complete the changes for all of the Canadian Provinces.

Please contact UNI Helpdesk if you need any help in making these changes.

Thanks,

Hi Dillon,

TC009 looks good, but I am no longer able to re-drive the SC as it has already been purged. Would it be possible for you to re-drive the SC that was sent back on July 7th or is it gone for you too?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Gary,

CSOR looks fine, this completes Driver N.

Let's start Driver O on Monday.

Have a very nice weekend,

Thanks,
Asma

Subject: UNI Site Table Update for Canadian Provinces

Good Afternoon,

On August 27th, AAMVA will be updating the IRE Bridge to act as a CDLIS 6.0 (Application37) site for exchanging messages with the Canadian Provinces. It was brought to our attention during testing that the H1 messages will fail unless the proper sub-system code is set for the Canadian Provinces. We currently have code in place to take care of this such that the response is still sent back to Canada, but you will see an entry in your System Error Log for the H1 message.

Jurisdictions that are currently operating as a CDLIS 6.0 (SPEX Application 37) site will have to update their UNI Site Table in both Test and Production environments for all of the Canadian Province Gap Codes that are listed below. For Application 37, the sub-system code should be changed from 4 to 8.

Instructions are provided below the list as a reference to make the UNI Site Table modifications. These changes may be completed at any time, even prior to August 27th. If this change is made after August 27th, it will not impact the transactions in any way, but you will see errors related to H1 messages exchanged with the Canadian Provinces in UNI's system error log.

AB – Alberta
BC – British Columbia
CN – CCMTA
MB – Manitoba
NB – New Brunswick
NF – Newfoundland
NS – Nova Scotia
NT – Northwest Territory

NU – Nunavut
ON – Ontario
PE – Prince Edward Island
QC – Quebec
SK – Saskatchewan
YT – Yukon Territory

Instructions for modifying Canadian Province UNI Site Table entries:

1. Go to the UNI On line Utilities and display the UTT225 screen. Enter a Canadian Gap Code from the list in the Site ID field in the upper left portion of the screen and press Enter. You should see something similar to below as seen using the AB Gap Code for Alberta:

```
UTT225                               UNIFIED NETWORK INTERFACE R4.0
TEST                                SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA          Net Stat

CD Net Service Name:      CD Net Service Name:      CD Net
FL FILE I/O              NC NCS                  TE TEST

      ID Appli Name      CD Subsy Name              ID Appli Name
02 CDLIS                 4 IRE/BRIDGE                37 SPEX

ACTION: _ A=Add, D=Delete, M=Modify
CHOICE: _ END=Exit, MEN=Menu, 220=List (

MA  A
```

2. Next, modify the Sub-system code for Application 37 by placing an '8' in the subsystem field and also entering an 'M' in the ACTION field in the lower left portion of the screen prior to pressing Enter as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0

CHOICE:  _  END=Exit, MEN=Menu, 220=List                (P

1A  A
```

Note: You can leave the info for Application 02 as is or change the sub-system code to 8 for that as well. Application 02 is not used by your site. It can also be removed but it is really not necessary to do at this time.

Repeat the above steps (in Test and Prod environments) for each of the Canadian Province Gap Codes provided in the list at the top of this email. It should only take a few minutes to complete the changes for all of the Canadian Provinces.

Please contact UNI Helpdesk if you need any help in making these changes.

Thanks,

Madhu Chandrasekharan

Subject: UNI Site Table Update for Canadian Provinces

Good Afternoon,
On August 27th, AAMVA will be updating the IRE Bridge to act as a CDLIS 6.0 (Application37) site for exchanging messages with the Canadian Provinces. It was brought to our attention during testing that the H1 messages will fail unless the proper sub-system code is set for the Canadian Provinces. We currently have code in place to take care of this such that the response is still sent back to Canada, but you will see an entry in your System Error Log for the H1 message.

Jurisdictions that are currently operating as a CDLIS 6.0 (SPEX Application 37) site will have to update their UNI Site Table in both Test and Production environments for all of the Canadian Province Gap Codes that are listed below. For Application 37, the sub-system code should be changed from 4 to 8.

Instructions are provided below the list as a reference to make the UNI Site Table modifications. These changes may be completed at any time, even prior to August 27th. If this change is made after August 27th, it will not impact the transactions in any way, but you will see errors related to H1 messages exchanged with the Canadian Provinces in UNI's system error log.

AB – Alberta
BC – British Columbia
CN – CCMTA
MB – Manitoba
NB – New Brunswick
NF – Newfoundland
NS – Nova Scotia
NT – Northwest Territory

NU – Nunavut
ON – Ontario
PE – Prince Edward Island
QC – Quebec
SK – Saskatchewan
YT – Yukon Territory

Instructions for modifying Canadian Province UNI Site Table entries:

1. Go to the UNI On line Utilities and display the UTT225 screen. Enter a Canadian Gap Code from the list in the Site ID field in the upper left portion of the screen and press Enter. You should see something similar to below as seen using the AB Gap Code for Alberta:

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA                                Net Stat

CD Net Service Name:      CD Net Service Name:      CD Net
FL FILE I/O              NC NCS                      TE TEST

      ID Appli Name      CD Subsy Name              ID Appli Name
02 CDLIS                 4 IRE/BRIDGE              37 SPEX

ACTION: _ A=Add, D=Delete, M=Modify
CHOICE: _ END=Exit, MEN=Menu, 220=List (

MA  A
```

2. Next, modify the Sub-system code for Application 37 by placing an '8' in the subsystem field and also entering an 'M' in the ACTION field in the lower left portion of the screen prior to pressing Enter as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0

Table 15. Violating Out-of-Service Order Offenses

FMCSR	FMCSR Description	ACD Code	ACD Description
Violating Out-of-Service Orders			
1 st conviction = no less than 180 days or more than 1 yr			
1 st conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than 180 days or more than 2 yrs			
2 nd conviction w/in 10 yr = no less than 2 yrs or more than 5 yrs			
2 nd conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than 3 yrs or more than 5 yrs			
3 rd conviction w/in 10 yr (no distinction for hazmat or number of passengers) = no less than 3 yrs or more than 5 yrs			
<i>NOTES: disqualification period must be in addition to any other previous period of disqualification (run consecutively)[49 CFR §383.51(a)(5)]</i>			
<i>Only applicable when offense occurred in a CMV</i>			
For 1 st conviction – ACD Code of withdrawal is same as ACD Code of conviction;			
Retention Period: 15 years from the conviction date or for as long as any resulting withdrawal is retained, whichever is longer.			
383.51(e)(1)	Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	B19	Violating a driver or vehicle out-of-service order while transporting hazardous materials that require a placard or operating a vehicle designed to transport 16 or more passengers, including the driver
383.51(e)(2)	Violating a driver or vehicle out-of-service order while transporting nonhazardous materials	B27	Violating a driver or vehicle out-of-service order (for violations not covered by B19)

Yes, thank you both! I bet the last two will be complete on Monday morning before the meeting.

All of you have a wonderful weekend. I'm sure everyone is happy that the light at the end of this particular tunnel is in sight.

Regards,

Mina Peters

Gary,

CSOR looks fine, this completes Driver N.

Let's start Driver O on Monday.

Have a very nice weekend,

Thanks,
Asma

Gary,

For violating the 1st OOO Conviction, the withdrawal should be no less than 180 days or more than 1 yr.:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
Violating Out-of-Service			
1 st conviction = no less than 180 days or more than 1 yr			
1 st conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than			
2 nd conviction w/in 10 yr = no less than 2 yrs or more than 5 yrs			
2 nd conviction w/hazmat or in vehicle designed to transport 16 ⁺ passenger = no less than			
3 rd conviction w/in 10 yr (no distinction for hazmat or number of passengers) = no less than			
<i>NOTES: disqualification period must be in addition to any other previous period of disqualification</i>			
<i>Only applicable when offense occurred in a CMV</i>			
For 1 st conviction – ACD Code of withdrawal is same as ACD Code of conviction;			
Retention Period: 15 years from the conviction date or for as long as any resulting withdrawal			
383.51(e)(1)	Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	B19	Violating out-of-service order while transporting hazardous materials
383.51(e)(2)	Violating a driver or vehicle out-of-service order while transporting nonhazardous materials	B27	Violating out-of-service order while transporting nonhazardous materials

Subject: UNI Site Table Update for Canadian Provinces

Good Afternoon,
On August 27th, AAMVA will be updating the IRE Bridge to act as a CDLIS 6.0 (Application37) site for exchanging messages with the Canadian Provinces. It was brought to our attention during testing that the H1 messages will fail unless the proper sub-system code is set for the Canadian Provinces. We currently have code in place to take care of this such that the response is still sent back to Canada, but you will see an entry in your System Error Log for the H1 message.

Jurisdictions that are currently operating as a CDLIS 6.0 (SPEX Application 37) site will have to update their UNI Site Table in both Test and Production environments for all of the Canadian Province Gap Codes that are listed below. For Application 37, the sub-system code should be changed from 4 to 8.

Instructions are provided below the list as a reference to make the UNI Site Table modifications. These changes may be completed at any time, even prior to August 27th. If this change is made after August 27th, it will not impact the transactions in any way, but you will see errors related to H1 messages exchanged with the Canadian Provinces in UNI's system error log.

AB – Alberta
 BC – British Columbia
 CN – CCMTA
 MB – Manitoba
 NB – New Brunswick
 NF – Newfoundland
 NS – Nova Scotia
 NT – Northwest Territory
 NU – Nunavut
 ON – Ontario
 PE – Prince Edward Island
 QC – Quebec
 SK – Saskatchewan
 YT – Yukon Territory

Instructions for modifying Canadian Province UNI Site Table entries:

1. Go to the UNI On line Utilities and display the UTT225 screen. Enter a Canadian Gap Code from the list in the Site ID field in the upper left portion of the screen and press Enter. You should see something similar to below as seen using the AB Gap Code for Alberta:

```

UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                  SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA                                Net Stat

CD Net Service Name:      CD Net Service Name:      CD Net
FL FILE I/O              NC NCS                      TE TEST

      ID Appli Name      CD Subsy Name              ID Appli Name
      02 CDLIS           4  IRE/BRIDGE              37 SPEX

ACTION:  _  A=Add, D=Delete, M=Modify
CHOICE:  _  END=Exit, MEN=Menu, 220=List
  
```

2. Next, modify the Sub-system code for Application 37 by placing an '8' in the subsystem field and also entering an 'M' in the ACTION field in the lower left portion of the screen prior to pressing Enter as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                  SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA           Net Stat

CD Net Service Name:                CD Net Service Name:                CD Net
FL FILE I/O                         NC NCS                             TE TEST

      ID Appli Name      CD Subsy Name                ID Appli Name
02 CDLIS                    4 IRE/BRIDGE                37 SPEX

ACTION: M A=Add, D=Delete, M=Modify
CHOICE: _ END=Exit, MEN=Menu, 220=List

MA  A
```

- 3. After pressing Enter, verify that you see the label 'STATE' next to the sub system code for Application 37 as seen below.

```
UTT225                                UNIFIED NETWORK INTERFACE R4.0
TEST                                  SITE TABLE MAINTENANCE (D)

      Site ID: AB
Network User Name: ALBERTA           Net Statu

CD Net Service Name:                CD Net Service Name:                CD Net S
FL FILE I/O                          NC NCS                             TE TESTM

      ID Appli Name      CD Subsy Name                ID Appli Name      C
02 CDLIS                  4 IRE/BRIDGE                37 SPEX              8

ACTION:  _  A=Add, D=Delete, M=Modify
CHOICE:  _  END=Exit, MEN=Menu, 220=List                (P

1A  A
```

Note: You can leave the info for Application 02 as is or change the sub-system code to 8 for that as well. Application 02 is not used by your site. It can also be removed but it is really not necessary to do at this time.

Repeat the above steps (in Test and Prod environments) for each of the Canadian Province Gap Codes provided in the list at the top of this email. It should only take a few minutes to complete the changes for all of the Canadian Provinces.

Please contact UNI Helpdesk if you need any help in making these changes.

Thanks,

Madhu Chandrasekharan

Jesse White's New Law Helps Veterans Gain Employment in the Trucking Industry (Illinois)

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read the press release for more.](#)

Gov. Rauner To Sign 'Motor Voter' Bill Monday (Illinois)

While some states argue over plans to make voter registration more difficult, Illinois' political leaders are agreeing to do just the opposite. And we applaud them. In May, the General Assembly unanimously passed a bill to link voter registration to the act of obtaining a driver's license or state ID. [Read the article at rstar.com.](#)

Hoosiers Will Soon Need Real ID To Fly (Indiana)

If you use a driver's license to go through security at the airport, you may need to get a new license soon. Starting in October 2020, Hoosiers will not be able to use standard driver's licenses to fly commercial air. Instead, they'll need what's called a Real ID. [Read the article at wishtv.com.](#)

Iowa DOT Reveals New License Plate Design

The winner of a contest to choose Iowa's new license plate is a revamped design of the same plate displayed on millions of vehicles the past two decades. However, the voting went down to the wire — the second-place finisher

narrowly lost following a late push Sunday night in support of a design based on Iowa's state flag. [Read the article at desmoinesregister.com.](http://www.desmoinesregister.com)

Iowa DOT Builds CDL Exam App to Improve Pass Rate

About 60% of commercial driver license applicants in Iowa fail the knowledge exam on their first try, according to Mindi Nguyen, assistant to the director of the state Department of Transportation's Motor Vehicle Division. [Read the article at ttnews.com.](http://ttnews.com)

Digital Proofs Of Vehicle Registration Made Legally Acceptable In Michigan

Digital proofs of registration can now be used at traffic stops, after new legislation was signed into law by Gov. Rick Snyder in June. [Read the article at lanthorn.com.](http://lanthorn.com)

Michigan To Begin Issuing REAL-ID-Compliant Driver's Licenses Next Week

Changes are coming to Michigan driver's licenses and state identification cards that could affect your travel plans. Beginning next Monday August 28, residents will have the option to begin applying for a new driver's license or ID card that will allow them to board flights and enter federal facilities. [Read the article at wilx.com.](http://wilx.com)

Who Decides Which Groups Get Specialized License Plates? (Minnesota)

You don't have to travel far in Wisconsin to see Green Bay Packers license plates, or as WCCO viewer Nancy from Henning calls them "ugly Packer" plates. She wants to know why the Minnesota Vikings doesn't have them. "Every new license plate has to start as a bill in the House," said Rep. Jim Nash (R-Waconia). [Read the article at minnesota.cbslocal.com.](http://minnesota.cbslocal.com)

REGION IV NEWS

Applications For California Immigrant Driver's Licenses Declining As Numbers Near 1M

There will soon be a million California drivers who obtained their driver licenses under a state law that allowed unauthorized immigrants to apply for permission to drive legally. As of July, about 915,000 immigrants had obtained the special licenses that became available in January 2015. [Read the article at scpr.org.](http://scpr.org)

Not Male Or Female: Proposed Law Would Create Gender-Neutral Option On California IDs

Most people use their California driver's license or state-issued ID card to prove their identity at banks, the grocery store, the doctor, or to board a plane at the airport — without giving it a second thought. [Read the article at eastbaytimes.com.](http://eastbaytimes.com)

Montanans Won't Get "Real ID" Until 2019

Another extension has been asked for as the state looks to get compatible with the Real ID Act. Our current extension runs out this October. In an effort to help those who want an enhanced ID, State Legislature passed a law to give people the option on which type of license to choose. [Read the article at kfbb.com.](http://kfbb.com)

Nevada DMV Continuing Expedited Services For Ticket Payment

A temporary program that allows drivers to pay ticket fines is getting a reprieve. Through the end of July 2018, the Las Vegas Justice Court and the state Department of Motor Vehicles will continue offering expedited services for motorists who need to pay their tickets in order to get their licenses reinstated, DMV spokesman Kevin Malone said. [Read the article at reviewjournal.com.](http://reviewjournal.com)

Oregon DMV Overhaul Drives Real-ID Compliance

As Oregon works toward complying with the Real ID Act, the state is also modernizing its computer systems at the Department of Motor Vehicles. [Read the article in gcn.com.](#)

2017 AAMVA Annual International Conference Closes

The [2017 AAMVA Annual International Conference](#) officially came to a close on August 23rd, in San Francisco. Attendees enjoyed three days of sessions and networking opportunities covering a wide variety of topics tailored to the AAMVA community. Check out photos from the event on [AAMVA's Flickr Page](#), or watch the [wrap-up video](#).

Internet Vehicle Sales Working Group Survey

AMMVA's Internet Vehicle Sales Working Group is charged with developing best practices of the regulation of Internet sales and to provide recommendations and educational materials to member jurisdictions to identify, understand and combat fraud and deceptive Internet vehicle sales practices. One of the challenges the working group has faced is identifying the scope of issues surrounding the changing ways in which motor vehicles are sold and offered for sale on the Internet. The working group is conducting the first in a series of surveys to collect information from the jurisdictions. Please respond to the [Internet Vehicle Sales Working Group Survey](#). If you have any questions, please contact [Cathie Curtis](#), Director, Vehicle Programs.

Subject: RE: AK NMVTIS - TC040

Hello Susan,

I did not execute TC041. The brand records in the new brand tracking system for preexisting data are all backwards due

to a mistake. I've fixed this record individually and I'm writing up a fix for the rest of them now. We can verify that the global fix is working by redriving an SC for a separate previously passed "we don't title this because it's junk" test case once I've performed the fix.

Sorry about that. TC040 should be good to go for one last SC.

Thank you,

Hi Dillon,

Did you already execute TC041? I'm not finding any emails on it but it's possible I've filed them incorrectly. I show that I reset the brand data on 7/13 and there is no brand data on NMVTIS in test at this time for this VIN. When I inquire against this VIN your state detail data for brand shows the reconstructed brand 10 which is not supposed to occur until TC041 but has a brand date of 5/24/17 which is what the spreadsheet indicates is the date the brand was applied by AK for the Salvage Brand 11 (TC040). So if you executed TC041, please send me the screenshots and I will validate.

Thanks,
Susan Creighton / 703.908.5893 office

Hi Dillon,

TC040 – the brand data on the HC does not match the brand date on the UB.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I re-drove the SD message you sent. I've attached a screenshot of the returned SD message with a NON-ACTIVE TITLE error.

Thank you,

Subject: AK NMVTIS - TC054

Hello Susan,

Here is information for the record I created for TC054:

20170823	THISRECORDSDTWICE	2017	HOND	3708996	40183985	000001000	M	
----------	-------------------	------	------	---------	----------	-----------	---	--

Please perform a successful CSOT against this record. Assuming there are no issues, I will then “accidentally” redrive the resulting SD message.

Thank you,

Subject: RE: AK NMVTIS - Current status

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: AAMVA Survey Request - AAMVA is updating information on ignition interlock best practices

AAMVA is looking to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity. Please respond to this survey.

Ignition Interlock Best Practices Update (Ends 09/15/2017) Responses received from ID, IL, MT, NE, OH, OR.

If you have any questions, please contact Jessica Ross at jross@aamva.org.

Thank you for responding to this survey.
Janice

Subject: FW: PDPS - Test Plan
Attachments: SPEXS PDPS Baseline Test Plan -AI.DOCX

Mina,

Please find the updated PDPS Test Plan in the attachment.

- Driver A2 says to perform a change of the DOB, but the old and new DOBs are exactly the same. – (AS) Done
- Alaska does not perform IE, IM, or IG messages, so cases C2, C3, D2, D3, and D4 will need to be omitted. - (AS) Done, # C2, #D2, #D3, #D4 are greyed out; # C3 is Delayed Search Response (MO) Message
- F2 and F3 are the same license and state. Should F2 be PDPSDRIVER102366, or PDPSDRIVER202366 ? We are also assuming that the comment “P3 responds to AI with [HG] responses.” refers to the HG and H6 responses. In other scenarios they are specified in the transaction line. – (AS) F2 is Status Request for DLN ‘PDPSDRIVER20366’ and F3 is History Request for DLN ‘PDPSDRIVER20366’
- There are no PDPS H1 or H7 messages – that is a SPEXS thing. So please remove the H1 from F2, F3, and F4 and the H7 from F3 and F4. – (AS) Done
- Alaska does not allow for duplicate driver information with different DLNs, so Driver Stream I should be omitted. – (AS) Done

Let me know if you have any questions.

Thanks,
Asma

Subject: RE: PDPS - Test Plan

Good morning, Asma,

We have reviewed the PDPS test plan and need to make the following modifications:

- Driver A2 says to perform a change of the DOB, but the old and new DOBs are exactly the same
- Alaska does not perform IE, IM, or IG messages, so cases C2, C3, D2, D3, and D4 will need to be omitted.

- F2 and F3 are the same license and state. Should F2 be PDPSDRIVER102366, or PDPSDRIVER202366 ? We are also assuming that the comment “P3 responds to AI with [HG] responses.” refers to the HG and H6 responses. In other scenarios they are specified in the transaction line.
- There are no PDPS H1 or H7 messages – that is a SPEXS thing. So please remove the H1 from F2, F3, and F4 and the H7 from F3 and F4.
- Alaska does not allow for duplicate driver information with different DLNs, so Driver Stream I should be omitted.

There may be other issues, but this is all we’ve identified so far. Can you please update the test and resend it? Thank you.

Regards,

Mina Peters

Sent: Monday, August 28, 2017 7:10 AM
To: Creighton, Susan
Cc: Anderson, Patrick (DOA sponsored); Peters, Mina L (DOA); Garber, Casey; Nolen, David B (DOA)
Subject: AK NMVTIS - TC078
Attachments: TC078 Proof of existing title.PNG; TC078 Add Title (with new Registration).PNG

Hello Susan,

Please find attached my screenshots for the execution of TC078. The vehicle was not titled correctly back when we first began structured testing. A pointer was created when it shouldn't have been. I removed the pointer and preformed the original pre-1980 no-registration titling from scratch with the same date of 05/30/1974. I've updated the title number and state titling key one the left side to account for this. I've also included a screenshot from the UI to show the vehicle had an existing title during the registration.

078	BB - 01	A vehicle that was not reported during initial load as it did not have active registration is now being re-registered and has active registration.	Title	New Registration	Sedan, 2 Door	AISTRUCTREDTSBB01	PORS	1974 with active title status and inactive registration status	AI	5105724	
-----	---------------	--	-------	---------------------	------------------	-------------------	------	---	----	---------	--

Gary,

On the HB message, AKA SSN Count on the 02/2 block is sent as '2', the valid values are '0' and '1':

GMSCSS	MESSAGE AKA SSN COUNT CLMF-MEC-CNT-SSN	AN / 1	Source of Element: Driver license applications; Accident reports; Driver Source of Definition: AAMVA Data Dictionary For messages that can co icates how many AKA SSNs are <table><tr><th>Value</th><th>Meaning/Desc</th></tr><tr><td>0</td><td>No AKA SSNs</td></tr><tr><td>1</td><td>One AKA SSN</td></tr></table>	Value	Meaning/Desc	0	No AKA SSNs	1	One AKA SSN
Value	Meaning/Desc								
0	No AKA SSNs								
1	One AKA SSN								

Can you please look.

Thanks,
Asma

Attachments: TC080 Change State of Title.PNG

Hello Susan,

I performed TC080 right before our last meeting, but I couldn't track down any e-mails regarding it. I'm guessing it slipped my mind. Please find attached my screenshot for TC080.

080	BB - 03	A vehicle moves into state which has a VIN with a non-printable character in the title and on NMVTIS	Title	Out-of-state Title (NMVTIS Participating State)	Hearse	AISTRUCTREDTSTBB03\$	HOND	2005	S9	AI000094598

Subject: AAMVA Training for Jurisdictions

08-28-2017

*AAMVA Systems Training aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. These web-delivered programs do not require travel and are learner-centered, interactive and guaranteed to produce results. All courses are **free** for AAMVA members.*

Hello,

Please find the upcoming training schedule below

August:

CDLIS and Related Topics:

28 MON	2:00-4:00 PM ET	CDLIS Reports- Timeliness & Accuracy Workbook: Timeliness (intermediate)
29 TUE	2:00-4:00 PM ET	CDLIS Reports- Timeliness & Accuracy Workbook: Data Quality (intermediate)
30 WED	2:00-4:00 PM ET	CDLIS Reports- CD90.4.1 Out-of-State Transaction as SOR Reports (advanced)

September:

CDLIS and Related Topics:

6 WED	2:00-4:00 PM ET	CDLIS Reports- Identifying Potential Issues with SDLA Inquiries Check, Medical Recordkeeping, Disqualifying Convictions Received and Disqualifying Convictions Rejected Reports (advanced)
7 THU	2:00-4:00 PM ET	CDLIS Reports- Identifying Potential Issues with Quarterly Open Problem Ticket, MPR Summary, Frequent Inquiry and additional CDLIS Reports (advanced)

19 TUE	2:00-4:00 PM ET	UNI Basics (basic)
20 WED	2:00-4:00 PM ET	UNI Advanced A (advanced)
21 THU	2:00-4:00 PM ET	UNI Advanced B (advanced)

26 TUE	2:00-4:00 PM ET	CDLIS Basics A - Overview (basic)
27 WED	2:00-4:00 PM ET	CDLIS Basics B - Inquiries (basic)
28 THU	2:00-4:00 PM ET	CDLIS Basics C - Updates (basic)
29 FRI	2:00-4:00 PM ET	CDLIS Reporting Foreign Convictions and Withdrawals (intermediate) *** NEW ***

SPEXS (S2S):

5 TUE	1:30-3:30 PM ET	SPEXS Overview (basic)
6 WED	1:30-3:30 PM ET	SPEXS Transactions AMIE (intermediate)
7 THU	1:30-3:30 PM ET	SPEXS Transactions NIEM (intermediate)
8 FRI	1:30-3:30 PM ET	SPEXS Batch Transactions (intermediate)

From: Gary Tancik <Gtancik@resdat.com>
Sent: Monday, August 28, 2017 7:52 AM
To: Syeda, Asma
Cc: Singaraju, Sruti; Peters, Mina L (DOA)
Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

There will be a single line fix to a model class for the GMSCSS parameter. The model class, "ControlMessageAkaGroupCountsRecord", is generically used by HB/HC/HD/HG message types.

Problem: Alaska's Monthly Timeliness and Data Accuracy For CDLIS Messages Review

Problem Number:890

Status: Analysis **Date:** 08/28/2017

Time: 13:02:48 **Creation Date:**07/31/2015

Creation Time:11:27:54 **Created By:** JShifflett

This is a Master Problem with Subtasks.

Progress:

Entered on 08/28/2017 at 13:02:48 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by September 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the July data, AAMVA noticed the following issues:

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (6 out of 6) Withdrawal (HW) messages

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 18.46% overall error rate (48 out of 260) Updates to MPR Personally Identifiable Information

CDLIS Data Quality of Pointer Deletions

- Alaska had a 35% error rate (7 out of 20) Delete Driver (UE) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal, Updates to MPR PII or Pointer Deletion messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **June** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 50% of its successful Report Out-of-State Convictions (HA) transactions (2 out of 4) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 78.95% error rate (15 out of 19) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (7 out of 7) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 23.61% error rate (17 out of 72) Delete Driver (UE) messages

Please find the June monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 06 June CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal or Pointer Deletion messages.

Entered on 05/31/2017 at 12:36:06 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by June 14th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **April** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 33.33% of its successful Report Out-of-State Convictions (HA) transactions (1 out of 3) within the federal time limit of 10 days

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (5 out of 5) Withdrawal (HW) messages

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 24.32% overall error rate (9 out of 37) Updates to MPR Personally Identifiable Information

CDLIS Data Quality of Pointer Deletions

- Alaska had a 62.96% error rate (17 out of 27) Delete Driver (UE) messages

Please find the April monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 04 April CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal, Updates to MPR PII or Pointer Deletion messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Entered on 05/25/2016 at 13:43:11 EDT (GMT-0400) by Jessie Rogers:

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by June 8th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **April** data, AAMVA noticed the following issues:

CDLIS Data Quality of Convictions

- Alaska had a 14.29% error rate (2 out of 14) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (1 out of 1) Withdrawal (HW) messages

Please find the April monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 04 April CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction or Withdrawal messages.

Thanks,

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

This is a Master Problem with Subtasks.

Progress:

Entered on 08/28/2017 at 13:02:48 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by September 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **July** data, AAMVA noticed the following issues:

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (6 out of 6) Withdrawal (HW) messages

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 18.46% overall error rate (48 out of 260) Updates to MPR Personally Identifiable Information

CDLIS Data Quality of Pointer Deletions

- Alaska had a 35% error rate (7 out of 20) Delete Driver (UE) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal, Updates to MPR PII or Pointer Deletion messages.

Thanks,

Entered on 07/28/2017 at 13:25:35 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by August 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **June** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 50% of its successful Report Out-of-State Convictions (HA) transactions (2 out of 4) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 78.95% error rate (15 out of 19) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (7 out of 7) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 23.61% error rate (17 out of 72) Delete Driver (UE) messages

Please find the June monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 06 June CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal or Pointer Deletion messages.

Thanks,

The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **July** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 0% of its successful Report Out-of-State Withdrawals (HW) transactions (0 out of 2) within the federal time limit of 10 days

CDLIS Data Quality of Withdrawals

- Alaska had a 42.86% error rate (3 out of 7) Withdrawal (HW) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal messages.

Thanks,

Entered on 07/27/2016 at 14:15:01 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by August 10th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **June** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 50% of its successful Report Out-of-State Withdrawals (HW) transactions (2 out of 4) within the federal time limit of 10 days

CDLIS Data Quality of Pointer Deletions

- Alaska had a 25% error rate (1 out of 4) Delete Driver (UE) messages

Please find the June monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 06 June CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal or Pointer Deletion messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

This is a Master Problem with Subtasks.

Progress:

Entered on 08/28/2017 at 13:02:48 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by September 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **July** data, AAMVA noticed the following issues:

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (6 out of 6) Withdrawal (HW) messages

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 18.46% overall error rate (48 out of 260) Updates to MPR Personally Identifiable Information

CDLIS Data Quality of Pointer Deletions

- Alaska had a 35% error rate (7 out of 20) Delete Driver (UE) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal, Updates to MPR PII or Pointer Deletion messages.

Thanks,

Entered on 10/26/2016 at 10:30:23 EDT (GMT-0400) by Jessie Rogers:

Good morning,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by November 16th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **September** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 0% of its successful Report Out-of-State Withdrawals (HW) transactions (0 out of 2) within the federal time limit of 10 days

CDLIS Data Quality of Withdrawals

- Alaska had a 66.67% error rate (4 out of 6) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 57.14% error rate (4 out of 7) Delete Driver (UE) messages

Please find the September monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 09 September CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal or Pointer Deletion messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/16/2015 at 10:41:44 EDT (GMT-0400) by JShifflett:

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

According to MAP-21, States are required to be green by September 2015. Your SDLA should have resolved all the CDLIS issues. Your SDLA is expected to reply to this message by October 15th with an analysis of the issues noted and a plan to address them. This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported. If you need any help to develop the plan, please let us know.

In our review for the **August** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 6.67% of its successful Report Out-of-State Convictions (HA) transactions (6 out of 90) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 18.90% error rate (24 out of 127) Conviction (HA) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 22.22% error rate (2 out of 9) Delete Driver (UE) messages

Please find the August monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 08 August CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Convictions or Pointer Deletion messages.

Thanks,

The code is loading the total number of ssn aliases, which there are two in this case, instead of a max of 1. This will require a fix to this parameter.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

The code is loading the total number of ssn aliases, which there are two in this case, instead of a max of 1. This will require a fix to this parameter.

From: Knittle, Julie <JKnittle@aamva.org>
Sent: Monday, August 28, 2017 9:47 AM
To: Thompson, Marla R (DOA)
Subject: Chief Administrator Meeting September 26-28

Good morning,

I have you listed as attending but I see that you have not registered for the meeting or made airline reservations. Just wanted to check to see if you need any assistance. I have copied the info again below in case you needed it. If you plan to attend please register and make airline reservations soon as I need to finalize the room count with the hotel by Friday. Thanks Marla.

The Region IV Chief Administrators Meeting will take place on September 26-28, 2017 at the Doubletree by Hilton Phoenix Tempe in Tempe, AZ. Your hotel and airline costs will be covered by AAMVA.

[Register Now](#) - **Please register by August 21, 2017.**

Note: You will be asked to log in to the AAMVA website using your email address and password. Some of you may not have or may not remember your password. If this is the case, please use the link "Forgot Password?" If you need assistance, please contact anyone in our Member & Conference Services team at [\(703\) 522-4200](tel:7035224200). If you would like to bring a guest, please contact [Julie Knittle](mailto:jknittle@aamva.org).

Hotel Accommodations: Doubletree by Hilton Phoenix Tempe, 2100 South Priest Drive, Tempe, AZ 89282. | [\(480\) 967-1441](tel:4809671441). **When you register, please provide your check in/out dates.** We will be making hotel reservations for all participants – please DO NOT call the hotel directly. We will provide all the names and arrival/departure dates to the hotel and room charges will be billed directly to AAMVA.

Arrival: Tuesday, September 26 (in time for a 1:00 p.m. meeting)

Departure: Thursday, September 28 (after 12:00 pm)

Airline Reservations: Information for making airline reservations will be sent in a separate email. Please follow instructions in that communication or call with questions. Please look for an email from travel@aamva.org -- you may need to check your SPAM folder. Please make your air travel arrangements as soon as possible also. The closest airport is Phoenix Sky Harbor International Airport.

Shuttle To and From Airport: The hotel does provide a courtesy shuttle. You will need to call from the baggage claim area to arrange a pickup. A taxi ride is approximately \$18 one way.

Attire: Business casual for all meeting functions

Travel/Meeting Questions: Julie Knittle, Director, Member Support, Regions III & IV, [\(571\) 405-1016](tel:5714051016), jknittle@aamva.org.

Subject: Chief Administrator Meeting September 26-28
Importance: High

Good morning,

I have you listed as attending but I see that you have not registered for the meeting or made airline reservations. Just wanted to check to see if you need any assistance. I have copied the info again below in case you needed it. If you plan to attend please register and make airline reservations soon as I need to finalize the room count with the hotel by Friday. Thanks Marla.

The Region IV Chief Administrators Meeting will take place on September 26-28, 2017 at the Doubletree by Hilton Phoenix Tempe in Tempe, AZ. Your hotel and airline costs will be covered by AAMVA.

[Register Now](#) - **Please register by August 21, 2017.**

Note: You will be asked to log in to the AAMVA website using your email address and password. Some of you may not have or may not remember your password. If this is the case, please use the link "Forgot Password?" If you need assistance, please contact anyone in our Member & Conference Services team at [\(703\) 522-4200](tel:7035224200). If you would like to bring a guest, please contact [Julie Knittle](#).

Hotel Accommodations: Doubletree by Hilton Phoenix Tempe, 2100 South Priest Drive, Tempe, AZ 89282. | [\(480\) 967-1441](tel:4809671441). **When you register, please provide your check in/out dates.** We will be making hotel reservations for all participants – please DO NOT call the hotel directly. We will provide all the names and arrival/departure dates to the hotel and room charges will be billed directly to AAMVA.

Arrival: Tuesday, September 26 (in time for a 1:00 p.m. meeting)

Departure: Thursday, September 28 (after 12:00 pm)

Airline Reservations: Information for making airline reservations will be sent in a separate email. Please follow instructions in that communication or call with questions. Please look for an email from travel@aamva.org -- you may need to check your SPAM folder. Please make your air travel arrangements as soon as possible also. The closest airport is Phoenix Sky Harbor International Airport.

Shuttle To and From Airport: The hotel does provide a courtesy shuttle. You will need to call from the baggage claim area to arrange a pickup. A taxi ride is approximately \$18 one way.

Attire: Business casual for all meeting functions

Travel/Meeting Questions: Julie Knittle, Director, Member Support, Regions III & IV, [\(571\) 405-1016](tel:5714051016), jknittle@aamva.org.

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here.](#)

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

PARTNER NEWS

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here.](#)

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here.](#)

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here](#).

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

PARTNER NEWS

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here.](#)

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

PARTNER NEWS

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here](#).

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

PARTNER NEWS

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

New Report Detailing Bicyclist Fatalities Prompts 30 Life-Saving Action Steps for States

New research shows that bicyclist deaths rose 12.2% to 818 in 2015, the largest percentage increase of all roadway user groups that year (the latest year in which data is available). But unlike decades ago, when children and teens represented the bulk of bicyclist fatalities, today the average age of those killed is 45, and most are male (85%). These findings are among many detailed in [A Right to the Road: Understanding & Addressing Bicyclist Safety](#), a new report by the Governors Highway Safety Association (GHSA). Funded by a grant from State Farm®, the publication analyzes national data to understand fatal bicyclist-motor vehicle crash characteristics and offers 30 action steps to help [State Highway Safety Offices \(SHSOs\)](#) and local communities assess their current bicyclist safety programs and take action to improve bicyclist safety. [Read more here.](#)

CVSA Prepares for December 2017 ELD Implementation

The Commercial Vehicle Safety Alliance (CVSA) will begin enforcing the electronic logging device (ELD) mandate requirements on Dec. 18, 2017. The out-of-service criteria (OOSC) associated with the ELD mandate will go into effect on April 1, 2018. [Read more here.](#)

2017 AAMVA Annual International Conference Wraps Up in San Francisco

AAMVA's [2017 Annual International Conference](#) wrapped up on Wednesday, August 23rd, in San Francisco, California. Attendees had a great three days of informative sessions and fun networking opportunities. AAMVA members elected their 2017- 2018 Board of Directors, including new Chair of the Board Kurt Myers (PA).

Whether you attended the conference in person, or followed the event on [@AAMVAConnection](#)'s Twitter feed, there are likely some things you'd like to see again or perhaps you'd like to share with colleagues:

- Watch our [Wrap Up Video](#) to get a snapshot of our time in San Francisco.
- Visit [AAMVA's Flickr Page](#) to see photos from the conference.
- Visit the [Downloads Center](#) where you'll find many of the presentations from the conference are available for download.
- Please take a moment to fill out this brief [survey about the AIC](#). Let us know how you feel so we can continue to improve our conferences. [Take the survey](#). You will need an AAMVA login and password (the same one you used to register for AIC). [Forgot password?](#)
- Join us in setting your sights for Philadelphia, Pennsylvania, host city for next year's Annual International Conference. We hope to see you there! [Take a look at what you can expect in this video!](#)

AAMVA Board of Directors Meets

Prior to the AIC, the AAMVA Board of Directors held their August meeting in San Francisco last week. Among the Board's actions, they approved the 2018 fiscal year budget, which reflects AAMVA's ongoing commitment to provide its members with the highest level of customer service and member solutions. The Board also received end of the year updates from the Standing Committees. Video highlights of the reports can be viewed online for the [Driver](#), [Law Enforcement](#), and [Vehicle](#)

2017 AAMVA Year in Review

AAMVA has created a Year In Review video, giving an overview of all that the association has accomplished in the past year. The video was shown at the Opening General Session and Annual Membership Meeting at the 2017 Annual International Conference. [Watch the video here!](#)

Looking for Members to Lend Their Expertise!

AAMVA is looking for additional jurisdiction members to lend us expertise. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. The information below shows the specific positions that we are seeking jurisdiction members to fill on two of our standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as N/A, the applicant chosen could be from any region. We attempt to maintain jurisdictional and regional balance on all committees and working groups. The following committees have vacancies and applications are being accepted. [Learn more about AAMVA committees.](#)

Law Enforcement Committee

Information Technology Representative - N/A

Vehicle Committee

Vehicle Representative - Region 1 (two positions available)

If you would like to serve on one of these committees, please complete the [Committee Application Form](#). If you have questions, please contact Me'Shell Drigo or Dianne Graham via email to committees@aamva.org or phone 703.522.4200.

Ignition Interlock Program Best Practices Guide Survey

AAMVA has created [a survey](#) to gather more information regarding jurisdiction specific ignition interlock programs to assist in updating our 2015 Ignition Interlock Program Best Practices Guide. The landscape has changed significantly with multiple jurisdictions passing varying forms of legislation governing these programs. We are also addressing the issue of reciprocity and would like to know what your jurisdiction does both programmatically, and in addressing reciprocity! [Survey](#) responses are due September 15th, 2017.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

New Illinois Law Helps Veterans Gain Employment in the Trucking Industry

Illinois Secretary of State Jesse White is making it easier for military veterans to get jobs in the trucking industry. Senate Bill 822, initiated by White and signed into law by the governor, allows for an exemption from the Commercial Driver License (CDL) knowledge written test requirement for qualified current or former military personnel who participated in military heavy-vehicle driving programs. [Read more here.](#)

FEDERAL NEWS

NHTSA Submits Marijuana-Impaired Driving Report to Congress

The National Highway Traffic Safety Administration (NHTSA) has developed [a report](#) summarizing what is known about marijuana use and driving. The report describes the absorption, distribution, and elimination of delta-9-tetrahydrocannabinol (THC) the primary psychoactive substance in marijuana, in the body. The report contrasts this metabolic process in contrast with the elimination of alcohol in the body, emphasizing that they are very different processes. The poor correlation of THC concentration in the blood with impairment levels is discussed, along with the implication that setting per se levels is not meaningful. Some of the challenges of measuring driving impairment resulting from marijuana use are reviewed. State laws relating to marijuana and driving are presented. What is known about the prevalence of marijuana-impaired driving and the crash risk associated with marijuana-impaired driving is reviewed. Finally, the report presents information on training for law enforcement to detect marijuana impairment in drivers, the feasibility of developing an impairment standard for

driving under the influence of marijuana and recommendations for increasing data collection regarding the prevalence and effects of marijuana-impaired driving.

DOT Publishes Semiannual Regulatory Agenda

The United States Department of Transportation (DOT) has [published](#) its unified agenda of federal regulatory and deregulatory actions. The Regulatory Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The intent of the agenda is to provide the public with information about the DOT's regulatory activity planned for the next 12 months. It is expected that this information will enable the public to more effectively participate in the Department's regulatory process. Comments are invited on any aspect of this agenda.

FMCSA Invites Public Comment and Holds Meeting on CSA Program

The Federal Motor Carrier Safety Administration (FMCSA) has [announced](#) its intent to hold a public meeting with respect to its Compliance, Safety, Accountability (CSA) program. That meeting will be held on Friday, September 8 from 1:00 - 4:00 at the FMCSA National Training Center, 1310 N. Courthouse Road, Suite 600, Arlington, VA 22201-2508. Parties may also submit comments to the public docket. Section 5221 of the Fixing America's Surface Transportation (FAST) Act required FMCSA to commission the National Research Council of the National Academies to conduct a study of FMCSA's Compliance, Safety, Accountability (CSA) program and Safety Measurement System (SMS). SMS is FMCSA's algorithm for identifying patterns of non-compliance and prioritizing motor carriers for interventions. FMCSA is prohibited from publishing SMS percentiles and alerts on the SMS Web site for motor carriers transporting property until the NAS Correlation Study is complete and all reporting and certification requirements under the FAST Act are satisfied.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

There will be a single line fix to a model class for the GMSCSS parameter. The model class, "ControlMessageAkaGroupCountsRecord", is generically used by HB/HC/HD/HG message types.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

The code is loading the total number of ssn aliases, which there are two in this case, instead of a max of 1. This will require a fix to this parameter.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

There will be a single line fix to a model class for the GMSCSS parameter. The model class, "ControlMessageAkaGroupCountsRecord", is generically used by HB/HC/HD/HG message types.

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Singaraju, Sruti <ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>
Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

The code is loading the total number of ssn aliases, which there are two in this case, instead of a max of 1. This will require a fix to this parameter.

Gary,

On the HB message, AKA SSN Count on the 02/2 block is sent as '2', the valid values are '0' and '1':

GMSCSS	MESSAGE AKA SSN COUNT	AN / 1	Source of Element: Driver license applications; Accident reports; Driver	
	CLMF-MEC-CNT-SSN		Source of Definition: AAMVA Data Dictionary	
			For messages that can co icates	
			how many AKA SSNs are	
			Value	Meaning/Desc
			0	No AKA SSNs
			1	One AKA SSN

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

There will be a single line fix to a model class for the GMSCSS parameter. The model class, "ControlMessageAkaGroupCountsRecord", is generically used by HB/HC/HD/HG message types.

Cc: Singaraju, Sruti <ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>
Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver O

The code is loading the total number of ssn aliases, which there are two in this case, instead of a max of 1. This will require a fix to this parameter.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

The NE was received for P3.

I sent the UG for P4 but am getting error response SSN TYPE DOES NOT MATCH. The parameters seem to match the documented duplicate pointer. Can you please take a look?

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Gary,

For Driver with ST/DLN 'P6/ 66CDLISONLYDUPAI', SSN Type is 'P'.

Can you please re-send the UG with Duplicate SSN Type as 'P'.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

PDPS pointers can be added ahead of time.

Lori,

Please take a look at the PDPS Test Plan and let me know if you have any questions.

We can begin the testing on Tuesday, September 5th or earlier.

Also, wanted to let you know that I am OOO this Friday, September 1st.

Thanks,
Asma

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

PDPS pointers can be added ahead of time.

Lori,

Please take a look at the PDPS Test Plan and let me know if you have any questions.

We can begin the testing on Tuesday, September 5th or earlier.

Also, wanted to let you know that I am OOO this Friday, September 1st.

Thanks,
Asma

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

PDPS pointers can be added ahead of time.

Lori,

Please take a look at the PDPS Test Plan and let me know if you have any questions.

We can begin the testing on Tuesday, September 5th or earlier.

Also, wanted to let you know that I am OOO this Friday, September 1st.

Thanks,
Asma

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Mina,

PDPS pointers can be added ahead of time.

Lori,

Please take a look at the PDPS Test Plan and let me know if you have any questions.

We can begin the testing on Tuesday, September 5th or earlier.

Also, wanted to let you know that I am OOO this Friday, September 1st.

Thanks,
Asma

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Gary,

That completes the End-End Testing for SPEXS.

Please give Sruti till Tuesday next week (09/05) to complete her secondary review.

We can begin the PDPS Test and don't have to wait till the secondary review is done.

Let me know when AI is planning to start the PDPS Test.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

This email comes from an external source, so remember, Think Before You Click!

I just tried this again and got no match. I then noticed that the setup shows a DOB 11/16/1966 and the test case 1 shows 11/17/1966. When I changed the DOB to 11/16/1966, the matches came through.

Gary,

Can you try one last time please.

If this doesn't work, we will move on to the next Test Case, since we did verify in the First Pass that AI was able to receive maximum number of H* messages .

Thanks,
Asma

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC75, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

INTERNAL DISTRIBUTION ONLY CDL Bimonthly Roundtable

To the Attention of all FMCSA Field Staff, SDLAs, and other Stakeholders

Please join us for our next FMCSA CDL Roundtable. To ensure our roundtable is valuable for our participants, the FMCSA CDL Division is requesting that you submit agenda items, questions, topics, and ideas that you would like discussed. Please submit them as soon as possible to allow the CDL Division sufficient time to prepare a response. Items should be sent to: CDLcompliance@dot.gov.

The purpose of the call is to discuss topics on relevant issues that affect our State Partners, and FMCSA Divisions and Service Centers as it relates to the Federal Motor Carrier Safety Regulations and Commercial Driver's Licensing.

As a reminder, the calls are 2:00-3:30 pm ET. **Be sure to add this information to your calendar.**

Registration Details:

Tuesday, October 3, 2:00 PM - 3:30 PM EST

To register in Adobe Connect, click [Here](#).

Closed Captioning will be provided.

Point of Contact:

Should you have any questions or concerns, please send your requests to: CDLcompliance@dot.gov.

Hi Dillon,

The title issue date you used for TC007 is still 08/03/2017 but the info you have below is 8/25. Please clarify.

Thanks,
Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that

you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,
Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Debra L. Leonardo, Office Manager III

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model

				remain REC or return to original? Perform no title issued to change owner?
--	--	--	--	---

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Subject: RE: AK NMVTIS - TC009

Yes, S7 actually had a different Title Number on their DB than was on NMVTIS when you did the CSOT in TC008 so they corrected it during TC009. Now the Title Number on your Title matches the Title Number in NMVTIS so you can move forward.

Thanks,
Susan Creighton / 703.908.5893 office

Hi Dillon,

TC009 looks good, but I am no longer able to re-drive the SC as it has already been purged. Would it be possible for you to re-drive the SC that was sent back on July 7th or is it gone for you too?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: RE: AK NMVTIS - TC040

Hello Susan,

I did not execute TC041. The brand records in the new brand tracking system for preexisting data are all backwards due to a mistake. I've fixed this record individually and I'm writing up a fix for the rest of them now. We can verify that the global fix is working by redriving an SC for a separate previously passed "we don't title this because it's junk" test case once I've performed the fix.

Sorry about that. TC040 should be good to go for one last SC.

Thank you,

Hi Dillon,

Did you already execute TC041? I'm not finding any emails on it but it's possible I've filed them incorrectly. I show that I reset the brand data on 7/13 and there is no brand data on NMVTIS in test at this time for this VIN. When I inquire against this VIN your state detail data for brand shows the reconstructed brand 10 which is not supposed to occur until TC041 but has a brand date of 5/24/17 which is what the spreadsheet indicates is the date the brand was applied by AK for the Salvage Brand 11 (TC040). So if you executed TC041, please send me the screenshots and I will validate.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: AK NMVTIS - TC054

Hello Susan,

Here is information for the record I created for TC054:

20170823	THISRECORDSDTWICE	2017	HOND	3708996	40183985	000001000	M	
----------	-------------------	------	------	---------	----------	-----------	---	--

Please perform a successful CSOT against this record. Assuming there are no issues, I will then “accidentally” redrive the resulting SD message.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC075, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: RE: AK NMVTIS - TC040

Hello Susan,

I did not execute TC041. The brand records in the new brand tracking system for preexisting data are all backwards due to a mistake. I've fixed this record individually and I'm writing up a fix for the rest of them now. We can verify that the global fix is working by redriving an SC for a separate previously passed "we don't title this because it's junk" test case once I've performed the fix.

Sorry about that. TC040 should be good to go for one last SC.

Thank you,

Hi Dillon,

Did you already execute TC041? I'm not finding any emails on it but it's possible I've filed them incorrectly. I show that I reset the brand data on 7/13 and there is no brand data on NMVTIS in test at this time for this VIN. When I inquire against this VIN your state detail data for brand shows the reconstructed brand 10 which is not supposed to occur until TC041 but has a brand date of 5/24/17 which is what the spreadsheet indicates is the date the brand was applied by AK for the Salvage Brand 11 (TC040). So if you executed TC041, please send me the screenshots and I will validate.

Thanks,
Susan Creighton / 703.908.5893 office

Hi Dillon,

TC078: The State Titling Key (STK) in the message does not match the spreadsheet info below.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: AK NMVTIS - TC078

Hello Susan,

Please find attached my screenshots for the execution of TC078. The vehicle was not titled correctly back when we first began structured testing. A pointer was created when it shouldn't have been. I removed the pointer and preformed the original pre-1980 no-registration titling from scratch with the same date of 05/30/1974. I've updated the title number and state titling key one the left side to account for this. I've also included a screenshot from the UI to show the vehicle had an existing title during the registration.

078	BB - 01	A vehicle that was not reported during initial load as it did not have active registration is now being re-registered and has active registration.	Title	New Registration	Sedan, 2 Door	AISTRUCTREDTSBB01	PORS	1974 with active title status and inactive registration status	AI	5105724	
-----	---------------	--	-------	---------------------	------------------	-------------------	------	--	----	---------	--

Hi Dillon,

I show you should have sent an updated Title Record when you sent the brand UNDOs.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

Please find attached screenshots for TC081. I've performed brand undos for the salvage and reconstructed brands added during TC038 and TC058 respectively.

Thank you,

Hi Dillon,

TC080: You should apply the brands that were on the old VIN to the new VIN so they don't get washed.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I performed TC080 right before our last meeting, but I couldn't track down any e-mails regarding it. I'm guessing it slipped my mind. Please find attached my screenshot for TC080.

080	BB - 03	A vehicle moves into state which has a VIN with a non-printable character in the title and on NMVTIS	Title	Out-of-state Title (NMVTIS Participating State)	Hearse	AISTRUCTREDTSTBB03\$	HOND	2005	S9	AI000094598

Hello Susan,

The record definitely should've been the number included in the spreadsheet. I was able to fix with a Title Undo and Title Add, but I'm going to repeat the test just to be sure.

Thank you,

Hi Dillon,

TC078: The State Titling Key (STK) in the message does not match the spreadsheet info below.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: AK NMVTIS - TC078

Hello Susan,

Please find attached my screenshots for the execution of TC078. The vehicle was not titled correctly back when we first began structured testing. A pointer was created when it shouldn't have been. I removed the pointer and preformed the

original pre-1980 no-registration titling from scratch with the same date of 05/30/1974. I've updated the title number and state titling key one the left side to account for this. I've also included a screenshot from the UI to show the vehicle had an existing title during the registration.

078	BB - 01	A vehicle that was not reported during initial load as it did not have active registration is now being re-registered and has active registration.	Title	New Registration	Sedan, 2 Door	AISTRUCTREDTSBB01	PORS	1974 with active title status and inactivie registration status	AI	5105724	
-----	---------------	--	-------	---------------------	------------------	-------------------	------	--	----	---------	--

Hello Susan,

Hello Susan,

I didn't realize the brands wouldn't migrate. I am only able to add the REC brand. Screenshot and spreadsheet entry included.

080	BB - 03	A vehicle moves into state which has a VIN with a non-printable character in the title and on NMVTIS	Title	Out-of-state Title (NMVTIS Participating State)	Hearse	AISTRUCTREDTSTBB03\$	HON

[Hi Dillon,](#)

TC080: You should apply the brands that were on the old VIN to the new VIN so they don't get washed.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

This email comes from an external source, so remember, Think Before You Click!

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.

2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

This email comes from an external source, so remember, Think Before You Click!

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.

2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

Subject: National Driver Register Cleanfile - September 17, 2017

PDPS Participants:

The National Driver Register will conduct a Cleanfile on September 17th, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by September 6th, 2017, and plan to send your file to NDR no later than September 13th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Subject: RE: AI-SPEXS 6.0 Baseline Structured Test Plan - E2E- Driver P

Asma,

I'm looking forward to working with you.

I would like to start testing tomorrow, if that works for you. Then we'll skip Friday, since you are off, and resume Tuesday. I plan to start at 6:00 am Alaska time.

During casual testing the batch runs to add PDPS pointers were running twice per hour. Is that also true for structured testing or do they only run once a day?

I'll email you tomorrow morning when I'm ready to start.

Lori

Mina,

PDPS pointers can be added ahead of time.

Lori,

Please take a look at the PDPS Test Plan and let me know if you have any questions.

We can begin the testing on Tuesday, September 5th or earlier.

Also, wanted to let you know that I am OOO this Friday, September 1st.

Thanks,
Asma

Hi Asma,

Thank you – we are very grateful this is complete! We would like to plan PDPS testing to begin on Tuesday, September 5. You will be testing with Lori McNeil, who I've included on this email. Do we need to set up any PDPS pointers ahead of time?

Lori, what time of the day will you be available to test? Also, if you would like to start PDPS before September 5 and Asma is available, please feel free to do so!

Mina,

It's the template at our end that's the issue.

I see that you are receiving 15 matches, but no H* messages are sent.

As I have mentioned, since we ran this scenario successfully during the First Pass, we can move on to the next Test Case.

Gary,

I will let you know when to send # P2.

Thanks,
Asma

Subject: RE: AK NMVTIS - TC009

This email comes from an external source, so remember, Think Before You Click!

Yes, S7 actually had a different Title Number on their DB than was on NMVTIS when you did the CSOT in TC008 so they corrected it during TC009. Now the Title Number on your Title matches the Title Number in NMVTIS so you can move forward.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I forgot to ask about TC009 giving a CSOT in progress (I think it's waiting on you to send confirmation).

Also for TC074, TC75, TC076, and TC078, should we still expect to receive SC messages even after a batch state has taken a pointer from us?

Thank you,

Subject: AK NMVTIS - Current status

Hello Susan,

Just a quick update on what I've working on:

TC006A, TC007, TC027

Working on a fix ensuring that the new process for recording brands locally won't produce duplicates, and also ensuring that only the most recent duplicate is returned and an administrative error logged locally if duplicates do manage to occur.

TC009, TC010

Successfully reperformed CSOT from TC008, received CSOT in progress during CSOT undo.

TC017

I've just executed and sent you the details. Reliant test case recently passed.

TC022

I've just executed and sent you the details. Was previously waiting for clarification from Debra.

TC030

I've just executed and sent you the details. You clarified the instructions for me in one of our recent meetings.

TC032

I've just executed and sent you the details.

TC035

I've just executed and sent you the details.

TC040, TC041

HC should now report brand dates correctly. SC can be sent again.

TC054

Can I supply you the information for a vehicle to perform a CSOT on? That way I can redrive the SD with the expectation that nothing should happen outside of an error being returning, but not risk manipulating structured test records if there were an issue.

TC058, TC081

I've just sent you an email inquiring about.

TC060

Currently adding vehicle type mappings from the spreadsheet that were not present in the mainframe implementation. This should resolve any test cases currently experiencing a blank vehicle type code in their HC.

TC074, TC75, TC076, and TC078

Currently working on the processing of batch state notifications NH and NC. I actually have some questions about what exactly is expected.

Thank you,

Subject: RE: AK NMVTIS - TC078

Hello Susan,

I found the issue and fixed it, as well as executed the test case from scratch. I've included my screenshot and spreadsheet entry. Old Title Number and Old STK has changed again.

078	BB - 01	A vehicle that was not reported during initial load as it did not have active registration is now being re-registered and has active registration.	Title	New Registration	Sedan, 2 Door	AISTRUCTREDTSBB01	PORS	1974 with active title status and inactive registration status	AI	4444290	
-----	---------------	--	-------	------------------	---------------	-------------------	------	--	----	---------	--

Subject: RE: AK NMVTIS - TC078

Hello Susan,

The record definitely should've been the number included in the spreadsheet. I was able to fix with a Title Undo and Title Add, but I'm going to repeat the test just to be sure.

Thank you,

Hi Dillon,

TC078: The State Titling Key (STK) in the message does not match the spreadsheet info below.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: AK NMVTIS - TC078

Hello Susan,

Please find attached my screenshots for the execution of TC078. The vehicle was not titled correctly back when we first began structured testing. A pointer was created when it shouldn't have been. I removed the pointer and preformed the original pre-1980 no-registration titling from scratch with the same date of 05/30/1974. I've updated the title number and state titling key one the left side to account for this. I've also included a screenshot from the UI to show the vehicle had an existing title during the registration.

078	BB - 01	A vehicle that was not reported during initial load as it did not have active registration is now being re-registered and has active registration.	Title	New Registration	Sedan, 2 Door	AISTRUCTREDTSBB01	PORS	1974 with active title status and inactive registration status	AI	5105724
